Much To Do Before A Dog

Synopsis

Based on a true story, this children's picture book, appropriate for ages 4 - 8 years old and their readers, consists of 33 illustrations. 10% of the profits from this #1 New Release will be given to Pets In Need, a no-kill animal shelter. Whimsical, hand-painted watercolors capture the determined journey of one little girl learning the sometimes agonizing meaning of responsibility with the reward of adopting a dog.

Customer Reviews

I read a lot of children's picture books and it takes a lot to impress me, but this book kept me hooked right to the end with its interesting story and illustrations. Great, fun read but also shows a child the real, practical responsibility of owning and taking care of a dog.

A sensitive loving story, not only of teaching a child responsibility, but also empathy and giving of yourself. What also came across was the lesson of 'keeping one's word' and a mature and

communicative parent-child relationship. Simple, yet touches the heart. I loved the illustrations! I would recommend this book to be read to/by 4-6 year olds.

The best way to capture a children's love of reading early on is to read together. This book is a perfect read out loud story - the illustrations are colorful, expressive and tell the story practically without the words. All along.. helping teach a great lesson on responsibility! Highly recommend this book for age 4-8. Enjoy!

My daughters and I really enjoyed this book. My kids often ask for a pet, but they never have considered the responsibility that goes along with having a pet. So far, they have a fish, but they don't always remember to feed it, but I remind them. In order to get a furry friend, they would have to show responsibility on their own and not have to be reminded, just like the little girl had to learn in this cute book. This would be a great book for children who have been asking for a pet. It shows them a good plan to take to earn the trust of their parents to show they are responsible enough for a pet. Even cleaning up after the pet, if you know what I mean! My daughters loved the book, and loved the pictures. They were very intrigued that it is based on a true story. We love children's books that are based on true stories! Those are the best kind of books! Jessica D. Adams, Author of The Underground Toy Society Series and Meeting Grandmom

What a charming book with terrific illustrations about a very important subject matter regarding pets and those children who take on the responsibility for their care. Valuable lessons to be considered and learned with this marvelous book.

I love every aspect of this book! From the words and message to the adorable illustrations. An insightful book without being preachy. Extremely well done, thought out, engaging and important. All parents should read this book themselves and share it with their children.

A story with a positive spin on working towards your goals that also shows a thoughtful parent-child relationship. We also liked that there was something to search for on every page!

There are probably many children out there secretly (or not so secretly) hoping for their first dog. This is a great little book - with absolutely beautiful illustrations- about the responsibility that comes with a pet. I'm sure many parents will find this useful and entertaining for their children.
