# Maternal And Child Health: Programs, Problems, And Policy In Public Health

## Synopsis

Maternal and Child Health: Programs, Problems, and Policy in Public Health, Third Edition takes a developmental approach to learning about Maternal and Child Health (MCH). Organized according to fundamental principles of MCH, the book covers traditional MCH topics such as family planning and maternal and infant health as well as skills that are applicable across Public Health disciplines such as planning, research, monitoring, and advocacy. Successfully tested in prestigious academic programs of Public Health, Maternal and Child Health, Third Edition appeals to students across the health professions and those interested in women's health, reproductive health, maternal and infant health, the health of children and adolescents, including those with special needs. The Third Edition is a thorough update that includes:

- New chapters on Environmental Health, Life Course, Oral Health, and Monitoring and Evaluation.
- Streamlined chapters on Assessment and Planning, MCH Research, Rights and Justice, and Advocacy and Policy Development
- New and additional material on global health and health disparities in MCH
- New material in life course theory
- New ancillary course materials for instructors

## Customer Reviews

just what i wanted. good quality for being used. came very quickly.

If you are a Maternal and Child Health major, this book is a foundational piece. I actually enjoyed this book, and the way the chapters were laid out. I am actually going to keep it for my collection for

reference material now that the class is over. Fast delivery, book is as described.

Good quality, as described. Content is not as thorough as expected,

Great product and good condition

I'm not a lightweight when it comes to serious textbooks, but when it comes to this sort of topic I expected the text to be a little less dry.

Great book with a lot of information you need to know about maternal and child health.

the new book was in excellent conditions and easy to read. Thank you for your service during this fall semester 2013.

most boring text book i have ever been subjected to.
