Manuscript Paper Standard Wire-Bound 12 Stave

Customer Reviews

I ordered 2 of these for my 8-year-old son who loves writing sheet music. He likes the paper quite well and hasn't complained about any features of the books. The spiral binding lets the book lay flat, which works well for him because he usually writes from the floor.

It got here fast and it's in perfect condition. I got this for my cousin so that she can use it for her music class. On the back of the front cover, there are a few tips on how to write music I'm sure she'll find that helpful.

Its exactly what i was hoping for. the pages are front and back with staff lines, and the pages are easy to turn. so happy with this purchase! i hope to fill it with plenty of new music.

I've read many reviews of this sheet music notebook that state the staff lines are too thick and take up ALOT of the spacing. Well, after going through and analyzing the one I received, I can honestly say that it's not really a problem. The lines are no thicker than the lines of any college bound or composition notebooks. There's a generous gap between each bar to clearly read your notes, and space above and below the staff for ledger notes. This is an EXCELLENT purchase for the price.

Love it, lots of lines and pages. Would recommend.

This is a very nice 12 stave blank sheet music book. I purchased this for my granddaughter who is trying to teach herself how to write music/songs. The paper is high quality and the spiral binding is some type of plastic which is very nice as it won't be able to twist or get misshapen like a wire one does with heavy use. The front and back covers seem strong enough to handle a lot of use too. I am looking forward to seeing the work my granddaughter can produce using this book.

Excellent manuscript paper. I can easily write pieces for the piano. I am very happy with this purchase.

I'm not sure why people are complaining about the line thickness. The overall size is a little larger than standard sheet music, so the lines are bigger and spaced a little wider. It's perfect for writing on the go or for doing music theory work. 5/5 I use this for everything and never leave home without at least one book in my bag.
