NPR Road Trips: National Park Adventures: Stories That Take You Away . . .

Synopsis

Grand Canyon National Park is one of the planet's Seven Natural Wonders, with 4.4 million visitors each year. Who keeps them safe, fed, and happy? When the wind blows at White Sands National Monument, legend says the centuries-old ghost of a Mexican maiden appears in the shifting sands. In Yosemite National Park, there's a guy who tracks road kill with a clipboard and a shovel to pry flattened victims from the blacktop. This colorful collection goes behind the scenery at America's most popular national parks. It also visits lesser-known parks with thought-provoking tales to tell.

Loved all the fun descriptions and memories that folks had of their adventures.!

This series of short vacation stories was easy to listen to, but lacked depth. Some of the readers

mumbled a bit and were harder to listen to, but overall for the price it was a good listen. None of the stories had any depth, and none would cause you to choose any of these vacation spots.

I didn't like this CD. I thought the narrator would go into more detail about the parks and museums. It's more of a listing of what's out there.

Published in 2012 by HighBridge Multicast performance Duration: 1 hour, 7 minutes NPR has searched its archives for stories about America's National Park System for this enjoyable collection. These stories don't just tell us about the park but tell us an interesting story in the park. The stories vary from the humorous (the story about the smallest National Park - Thaddeus Kosciuszko National Memorial in Philadelphia which consists of a single room and covers .02 acre to honor this figure from the Revolutionary War) to the wondrous (Death Valley in full bloom after a once-in-a-lifetime rainstorm). The listener learns about the small city of employees that run Grand Canyon National Park, spooky tales of love at White Sands, an effort to preserve the music of New Orleans and a park employee who charts and maps the roadkill that he finds as he goes about his work. The audio quality is, of course, excellent since these stories were originally produced for broadcast on NPR. Besides that, this is an interesting collection - the stories are not repetitive, they alternate in mood and length and come together to make an excellent listening experience.
