Customer Reviews

First Hutton is one of the "grandfather " of today's HEMA, his books are full of important knowledge, and are very well written. This book deserves to be in every aficionado's library. This is an historical book, not a how to manual; Hutton has "Cold Steel" a manual on the use of the sabre also in Kindle format that I can recommend. If you want an overview of the history of the sword in Occident, this is a good place to start. The format "Print Replica" should be considered seriously for all editions of classical fencing books. It combines the accuracy of a PDF format with the ease of use of the Kindle. It allows the use of a dictionary, highlighting, notes, etc. in what is essentially a copy of the original. Also the price is affordable. I would encourage the publisher to do this to the plethora of fencing books in the public domain. Congratulations, I do not have the technical know how but I am sure that what you did wasn't easy. Peter A Sword Nerd.
