## Customer Reviews

I have bought several of these books to prepare for visiting other countries, and they are always spot on. If you enjoy knowing a bit of background before you travel, and don't want to be an ugly tourist, check these books. This one, on Laos, was a wealth of information on customs and beliefs.

My trip was more enjoyable for having read it.

Lots of great information. Author covers all the necessary areas to help understand the Lao people and culture. Minimize culture shock by reading this book before you come to Laos

Good and surprising background info.

This was a great read. It will make my time in Laos so much more interesting.

Everything important has yet been said in the synopsis written by very expert people. For every real traveller going to a foreign country, especially an exotic one, the CultureShock Book is a real Must-Read. This series is a precious adviser on almost everything a "Stranger in a Strange Land" has to know... and then to live in the country that we enter. Especially in the Asian countries where the "Face" and its very easy loss because of misbehaviour, mostly unwilling - these books are a real well of knowledge. The most important informations are often in the "Religion" department - the most obvious are: No Shoes on Temple Grounds, the Right Dress Code for Men and Women, Women have to Stay Away from the Monks, the Donations etc...) So I can only confirm: the Culture Shock Book about Laos has been very, but very very helpful for me on my voyages. The "lessons" are very entertaining too, there are language hints, there is a Traveller's Quiz at the end, and history, mostly a very dry department, is also not too boring :) Like I said: A very Must-Read for every responsible and interested traveller! PS: I have my first edition of the CultureShock Laos of 1997 - 208 pages - now there are 320! And reading both books parallel was very interesting because of the changing in so many departments :)
