# Vatican Council II: The Conciliar And Postconciliar Documents

## Synopsis

Vatican Council II: The Conciliar and Postconciliar Documents is now available in the widely used study edition translated by Irish Dominican Austin Flannery (+October 21, 2008). This is the translation chosen for inclusion in The Catechism of the Catholic Church and the text that both students of the Council and students of the Catechism will want. It contains all sixteen documents of the Second Vatican Council plus the forty-nine later documents from popes and Vatican congregations that implement the details of the Council's decisions. Special features of this study edition: Larger page size, with larger print and more generous margins. Focus questions after each Council document help the reader comprehend the main points. Creative questions assist the reader in applying the content of the Council documents to personal experience or to future development in the Church.

I love it

Great Quality

Excellent resource for Liturgy Committee work.

This a long term read. Because so much was included.

DO NOT BUY THIS BOOK! I have a Master's degree in Catholic theology. In the effort to make the language inclusive, this edition has sadly lost much of the nuance of the original documents. I became incensed when some key phrases were changed in a way that actually changed the meanings. Go to the Vatican website to get true translations or try the Ignatius Press version of the four constitutions. (note: the 1975 version by Flannery is actually quite good... but absolutely not this translation!)

s Read what the Curch really said at the council as opposed to what you read from eronious siuces
