## Customer Reviews

I love these books! I am sad that Barnes and Nobles doesn't carry this anymore so I have to order online which is more expensive but it's worth it. These patterns and different colors are awesome. The only thing is that most of these books don't offer perfect squares, so be ready to cut off edges off. I know it's extra work, but sometimes it's worth it. I have been doing origami for 10 years and these are always my go to books, my friends always love the colors in my origami pieces. I recommend it!

Nice, bold, and colorful graphics. Fast delivery

The paper is not a square but instead a rectangle with one side that's 3 cm longer.
