Barron's ACT Flash Cards, 2nd Edition: 410 Flash Cards To Help You Achieve A Higher Score

Synopsis

This set of test-preparation flash cards is designed to give prospective ACT test-takers the help they're looking for. The cards cover all five sections of the ACT and are divided into categories that reflect the ACT's test areas: English, Math, Reading, Science, and Writing. Cards for each section are filled with test-taking tips and strategies, important facts, and practice problems that mirror questions on the ACT. The English cards focus mainly on punctuation, grammar, and style. The Math cards cover all topics that appear on the ACT. The Reading cards contain strategies to maximize time and determine correct answers. The Science cards cover data representation, research summaries, and conflicting viewpoints. The Writing cards offer tips for creating a strong essay. All cards have corner punch holes that accommodate an enclosed metal key-ring-style card holder. Students can use the ring to arrange flash cards in sequences that best fit their study needs.

As a Junior who recently took the ACT for the first time 3 weeks ago, I deeply regret not buying this product sooner. I have purchased two books on the ACT that gives you walkthroughs and real practice test, but they don't compare to these cards. The cards first give you strategies in each category before you start the practice questions. They explain the correct answers and the wrong answers; this is really helpful. There are 410 cards inside the box. The box includes a ring to put the cards on- the cards are hole punched in the bottom left corner. The box containing the cards is light weight and easy to travel. They separate the subjects from one another. The order is the way you are tested on the ACT: English, Math, Reading, Science, and Writing (optional). English: 175 cards total, 25 strategy, 150 questions. Math: 150 total, 40 strategy, 110 questions. Reading: 25 total, all strategy. Science: 50 total, 20 strategy, 15 definition, 15 questions. Writing: 10 total, all strategy. I definitely would recommend this product to any student.

Does not contain directions and strategies for the new writing prompt. Great for English and Math. Vague and general for Reading and Science

I'm really using the cards to help my students pass the GED. Some of the questions are not applicable, but that's okay. The math will really help.

This product is definitely worthy the money. My daughter used this product everyday for months and aced her ACT test.

It's hard to get your teenager to study for the ACT test, but we all know how important that test is. This box of Barron's ACT flash cards makes reading and answering questions into a game! The price is right and I have no regrets ordering it for my daughter.
