Gr 10 Up-A thorough and well-documented discussion. Bauer gives an overview of Jewish history beginning 2000 years B.C.E. and notes the many conflicts and discriminations the Jewish people have suffered throughout time. Placed within that context, the initial disbelief from many Jews regarding the plan of complete annihilation becomes much more understandable, although the author reports the cases of Jewish resistance and help from outside sources. Unfortunately, though, the end result is one with which we are all too familiar. The organization and exhaustive coverage are first-rate, and this revision of a 1982 title includes information not available earlier from both Eastern and Western countries. The "what" and "how" are included here, but there is also an attempt to discover the "why," and that is what lifts this title into the realm of an advanced study of a difficult topic. An excellent resource. Paula J. LaRue, Van Wert Middle School, OH Copyright 2002 Cahners Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

This book documents many of the Pogroms motivated by hatred of the Jews during the 1930-1945 time span. There are many other books on this subject, however this one provides additional new major revisions and new findings have been incorporated containing specifics about the 1935-1940

timeframe, or so I have found it to be. The book provides detailed actions the free countries took to HOPE that the Genocide would go away, but did next to nothing to help by increasing immigration or speak out against the German, Russian and other countries persecution, expulsion or massacre of European Jewry. Yes, once the USA, Canada, Britain, France, etc got involved, we as a coalition assisted, but it was late in coming. Every High School, Trade School and College/University student in the Western Hemisphere should read this book. Might not be bad if everyone young/old reflected on what happened, AND COULD HAPPEN AGAIN, to all of us.

This book took our college class from the beginning to the end of Jewish history. There were so many events that took place prior to The Holocaust that are very important in one's education. I learned to respect and admire the courage of the Jewish people.

A tragic account of not only the Holocaust but also a summary of the whole history of the Jewish people.

Depressing

Prof. Yehuda Bauer is the most thorough Historian on the Holocaust.
