Customer Reviews

While reading this book I kind of felt like I was binge watching a TV show where I was already too emotionally involved in the characters. Every night I would say "Okay, just one more chapter" and then after that chapter it would be one more. All of the characters are wonderfully developed and it's very easy to really like more than just the two main characters. I had a hard time putting this book down because I just had to know how it ended and the ending of the book had me in tears. I always find it hard to review a book without spoilers but I want to write something that people can read without revealing too much about the book itself. I look forward to reading more from this author. I received this book as a free kindle giveaway on goodreads.

What a wonderful book. I could not put it down and it remained a mystery until the last 30 minutes. At 40 minutes I was in tears and 10 minutes later I finally got the rest of the story! I love books that I start and I'm grabbed at the story unveiling in the first chapter. It got a little cheesy at the very end but I suspected it would. I'm not into the love story part in books -- it is unrealistic - always!

I loved this book and even cried during the end which I rarely do but was so involved with the characters and living through their emotions that I got drawn into all the drama...I haven't read any of this author's books but am going to check out any others to read. I couldn't put this book down until I finished and found out what really happened to everyone. Really enjoyed this book and the way the characters interacted with each other. Perfect Drama and Suspense and Mystery right up to the end.

The story itself is gripping but the inclusion of Alzheimer's as a subplot adds an interesting dynamic. The subject is handled sensitively and factually. The love story at its heart is sweet. Recommended for romance readers who like their stories with unexpected twists and something unique at the center.

This is the first time reading this author and it won't be the last! I couldn't stop reading this thrilling well written novel! The characters are unforgettable and I really hope to see many of them in future books!

Too many clichés. "He was ripped". I never stop on a book but I stopped halfway through this one. Blah!

This was a well-constructed mystery that was difficult to put down - I kept wanting to see what would happen next! The characters had depth and even minor characters were vivid and memorable. I skipped over the "naughty bit" (during which the hero and heroine consummated their relationship), so I can't tell you whether that was good or not. But I can say that the book didn't really need that scene; it was absorbing and interesting entertaining just on the strength of the other chapters. This was a very good mystery laced with the romance between the hero and heroine. But even more interesting from my perspective were the relationships among the families that fed into the mystery for many different directions. This book contains a lot of secrets to be ferreted out and revealed and more than one mystery to be solved. I really enjoyed reading this book and finding out what the secrets were and how the mystery was eventually solved.

I really enjoyed reading this book. It was a very involved story and was hard to put down. This was a book that kept me guessing as I got more and more engrossed in the book. Great job with this book and I'm anxious to read the other two in this series.
