"This massive tome has over 1,000 descriptions of hikes for all levels of experience, and hundreds of hikes are within a 90-minute drive of Seattle and Portland". -- Travel Books Review --This text refers to an out of print or unavailable edition of this title.

Great book! Hikes all over the northwest with explanation of what to expect and number scale for difficulty. I would definitely recommend this for anyone living in the northwest or visiting and wanting an extensive guide to trails in this area.

A great resource for our summer trips to the Pacific NW. The contact info and trail notes are valuable as is the mileage. I personally think it's not realistic to mention the estimated time for the hike since everyone has their own pace and pauses. It would be nice to have elevation gain but with

a map you can estimate that yourself. The trailnotes give you a good overall idea of the hike and whether it suits your taste. I purchased this "used" but it was like new and a great bargain.

Great book, great hikes, great descriptions, GREAT GUIDE! The guide has over 1000 hikes in the PNW with great/accurate descriptions,directions, and lists for contacts at each hike (for maps, camping, etc.) The hikes we have already been on that are in this book are properly rated for both difficulty and worthiness. Other than the permit information being a bit out dated, this book is excellent!

Great layout, easy to navigate. It could be better. The maps are broken down into moderate sections. A lot of useful information.

Great hiking book. Happy with my purchase.

It's everything it said it was! Great condition!! Just wish it had some beautiful pics of the hikes, that would help with choosing one of the many thousand hahaha

Love the trail descriptions and the number of hikes in the book! Wish they would include trail maps, but those are easily found online or at a ranger station.

My son-in-law loved this book and intends on taking many of the hikes. Very pleased with the book.
