Shipping Weight: 4.4 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 3 customer reviews

Best Sellers Rank: #1,922,101 in Books (See Top 100 in Books) #94 in [Books > Travel > United States > Colorado > General](#) #1087 in [Books > Reference > Catalogs & Directories](#) #2217 in [Books > Arts & Photography > Photography & Video > Nature & Wildlife > Plants & Animals](#)

Customer Reviews

Muench has been photographing America for more than 30 years. Marc Muench was born in Santa Barbara, California, where he now resides with his wife, Stefanie, and their three children. He has been a professional landscape and sports photographer for over 20 years. After completing his studies at Pasadena Art Center College of Design, Marc immediately began photographing for book publishers such as Graphic Arts Center, Browntrout Publishing, and Time Inc. His photographs have appeared in numerous magazines, books, calendars, and postcards, and in 2003, he was designated as a Kodak Photo Icon. Marc is now the artist-in-residence at dgrin.com for Smugmug, where he contributes on a regular basis to the Muench University critique thread. He is also the photo editor of the National Parks Guide, published by The American Park Network. The guides contain many of his images taken throughout the United States National Park system. Marc recently completed a year-long video project on Catalina Island for the Catalina Island Conservancy. The five-minute video highlights the new Trans Catalina Trail, capturing dynamic landscapes, wildlife, and hikers exploring their way across the Island. Marc's goal is to convey the drama and the power of nature "to share the experience" in his photographic images. And his images show that, without a doubt, Marc has achieved his goal time and time again.

I've got an entire shelf of Colorado photo books, and this is one of the best. The pictures are fantastic - often taken at rare times and filters used to give them an almost "better than real" appearance. The brief text is also interesting, and each picture location is identified.

This book is FABULOUS!!! Since my visit to the Canadian Rockies over two years ago, I have searched for a book which could capture the spectacular images I remember. David and Marc Muench's amazing landscape photographs are magnificent. J. Udall's essay on this region is equally captivating, amusing and above all reminds me that I must return there soon! In a world of overhype and hyperbole, this book is truly matchless.

This book is definitely worth every bit of 5 stars. David Muench's photographs are astounding. There are many pictures from Colorado, and his photos of wildflowers in Yankee Boy Basin are great. The pictures of Glacier National Park actually do an amazing justice to the beauty of that park. Also, the pictures of the Canadian Rockies, especially in Banff, are wonderful. It makes a great coffee table book or a gift. You will want to go through the book page-by-page because every picture, and there are too many to count, is intriguing. Definitely worth buying!
