Customer Reviews

The sixvolume Science Missions series presents timely, focused discussions of science issues students will find in the news. Each 56page book provides sufficient background material on a topic for a student reader to make sense of a controversy. In esse --NSTA Recommends

Formerly an editor at the educational publisher Weekly Reader, Michael Burgan has been a freelance writer for 17 years. He has written more than 250 books for children and young adults, specializing in U.S. history, geography, and biographies of world leaders. He has also written fiction and adapted classic novels. Burgan has won several awards for his writing, and his plays for adult audiences have been staged across the United States. He graduated from the University of Connecticut with a BA in history. He currently resides in Santa Fe, New Mexico with his cat Callie.
