The Bump Pregnancy Planner & Journal

Synopsis

From the #1 website for moms-to-be, pregnancy and parenting lifestyle destination TheBump.com, comes a keepsake planner and journal with all the essential pregnancy tools and checklists. Excitement and anticipation...Nausea and sleepless nights...All part of the course for pregnancy. Moms-to-be have many questions and emotions, and this planner and organizer addresses both their practical and sentimental needs. The keepsake format allows parents to record everything from feelings and cravings to doctor appointments and baby shower gifts (helpful for when pregnancy brain sets in!), and it also includes 3 pockets for sonograms, photos, and mementoes from the first trimester through the baby's first months. With an additional see-through pocket in the cover for slipping in a personal photo (either of a growing baby bump or a 3D ultrasound), this chic binder is essential for organization, as well as a memory book to save for years to come.

Customer Reviews

CARLEY RONEY is the cofounder of The Bump, The Knot, and The Nest. She and her team of editors at THE BUMP, the #1 site for new moms, create magazines, planning apps, books, and TV shows based on the best advice from TheBump.com.

This pregnancy planner & journal is really nice and well-made. It would be perfect if it had a blank calendar and a place to write your own "to-do" checklist. Even adding a few blank "Notes" page at the end would be a very helpful addition to this book. I'm surprised, really, there isn't space

anywhere for unprompted writing. Also, note that the Gift Log section where you can track gifts and thank you cards only has 13 spots, so if you imagine that you'll be having a large baby shower (or multiple celebrations!), you likely won't be able to fit everyone into the book. The book I had with my first pregnancy also had a section to track things that I borrowed from other moms, which was very helpful so that I could remember where to return them when I was done! Overall, I enjoy the journal aspects of this planner, and it still has just enough organizational sections to keep me on track (which is what I really wanted).

Great book for new mommys. Lots of info; checklists of items that you and baby need, places for pregnancy photos, pockets to store ultrasound pictures and other things from your doctor appointments.

Love this journal and how it breaks down each trimester and what to ask your doctor/ expect at each doctor visit, not to mention space for baby bump pictures each month of pregnancy.

This book is a cute albeit very high-level way to capture your pregnancy experience.

Love this book, I'm collecting memories and writing down everything that happens.

I looked high and low for a pregnancy planner and this one was by far the best I found! I like that it's more gender neutral, since you obviously never know in the beginning boy or girl. I love that it prompts you to answer questions and write letters to baby (a little cheesy but I think it'll be cool to look at in the future). It gives some okay/good tips (for shower, nursery, etc.) and some parts make you think about things you might not have thought about planning. It has places for you to write your doctors appointments and what happened at each. Everything is broken down into sections which is nice. First, second, third trimester and then a post birth section too. Each trimester is separated by months where you can fill out information and begins with a folder you can place any documents or reminders in. Very well organized and asks relevant questions you actually want to answer.

really great product. Inserts are detail and interesting.

This has great information and plenty of room to write your information down too.
