You’ll have the best time creating these delicious and easy-to-follow recipes, while also doing right by animals, the planet, and yourself! If you know anyone who balks at the thought of vegan food then you can feel free to smirk when you tell them everything they just devoured at your Latin-food dinner party was 100-percent animal-friendly.”

YUM! My husband and I made the Spinach & Mushroom Enchiladas Verdes from this cookbook tonight, and they were amazing! Freshly-fried tortillas stuffed with cumin-spiced mushrooms, onions, and spinach, topped with cashew crema, salsa verde, and pickled red onions. I was trying to mark the pages of the recipes I want to try, and I've almost marked them all! I definitely recommend this book to anyone who loves Mexican food. I think I'll make the nachos next!

Love this cookbook!

Hands down the best vegan cookbook ever!

I love this book. So many great and authentic ideas.

Quantities are to large, other than than that, interesting.

One of the best vegan cookbooks I've purchased in quite a while. Everything is delicious that I've made so far and I highly recommend it to anyone that is considering purchasing it.

I love all the authentic recipes in this book. The book is worth buying for the cashew crema recipe alone. I could drink it from a straw.
