Customer Reviews

Planning a trip to Tuscany and renting a villa. Map served as my guide and a compliment to mapquest to better locate the regions around the villas that I was considering. Detail is good. When in Tuscany it will be a valuable tool, keeping the gps honest. I'm a map person.

The map was very detailed but the font size was smaller than expected thus making it somewhat difficult to use for someone whose eye sight is not quite what it once was.

This map was an adjunct to our GPS routes throughout Tuscany. Substantially better quality paper than most maps, it is a wonderful road map to utilize as you plan ahead.

Even though I plan on taking my GPS to Italy with me, it's still a good idea to have a good map to hold when you are planning your day trips. This map was recommended on several travel forums and is quite detailed

We are planning to go to Italy and travel the back roads, visiting farms and wineries. This map is physically huge and extremely detailed--just what we wanted. Not having a copy to peruse or judge, the description on the website turned out to be accurate in terms of our needs and was very helpful in our purchase decision.

Saw this in a post somewhere. best purchase ever. It shows all of the usual roads but also includes small ones. Great for exploring all of those fabulous hill towns that you come to Tuscany to see. from now on I'll be getting maps from this company for any area I want to explore in depth

I consider this map the best one for someone driving in Tuscany. Very clear and detailed for each road on the region.

The best map!
