My daughter is 10 and we are looking forward to summer break when we can read this book together.

Awesome!!! Super Fast Shipping! Thank you so much!!!!

Great quality book with well thought out writing. Great series I've bought all that are available.

My mother gave me this book when I was a kid. Though geared for kids, it's great for adults too. It breaks down meditation, creative visualization and other essential elements of magic down in a very easily understood way. Wonderful for beginners.

This is a great book for the beginner rather child or adult. It is very simply written and includes a few ideas to get you started down the path. I bought this book for my 11 year old. I am a huge fan of Ted Andrews and own many of his books. I have met him in person and I found him to be a very knowlagable and friendly man willing to share his vast knowlage. Please check out his other books.

Neat book, enjoyed it a lot. Quality was good
