Awesome piano book! I read tons of reviews prior to buying this version and all I can say is "Ditto! This book rocks!" I'm an enormous Beatles fan at 57 having grown up when the Fab Four were at their peak. I got a piano for my birthday and wanted to start out with anything besides the standard boring piano lessons and I wanted something I could do by myself. The other reviews raved about this book being so much fun and super easy to play. It really is great. My husband is an excellent guitarist who has been after me to play an instrument for years so we could work together, and he also adores the Beatles which he has memorized many of their popular songs, so now we play together and have a blast. One thing I did notice on some of the reviews I read before buying is how some folks dissed the book for being too easy. Everyone has a different degree of talent when it comes to playing the piano, and if you're into Beethoven and more complex material, then yeah, this may be a little lame for you. But if you wanna have fun, sing, and bang out some great Beatles tunes without too much effort and let the whole neighborhood join in then this is the book for you. All the versions of each song are included, and there are 120 songs from some of their first classics to their last debuts. I'm not rating this book because it's Beatles sheet music but because it's well made, the print is very large and very black which makes it incredibly user friendly for us blinder folks, and...uh, yeah, it's Beatles music. Gosh, if you don't like the Beatles then I wouldn't recommend it, but if you do, go for it. Well worth every penny I paid for it and then some.

The easy piano book THE BEATLES BEST is great. There are one hundred and twenty full length songs with complete lyrics. All the famous Beatles hits are here and as you can imagine with one hundred and twenty selections some more obscure songs are included as well. The arrangements really are easy piano for the most part with many written in the keys of C and F though some pieces are more challenging than others. Just reading the complete lyrics of some of these songs is

entertaining. Piano playing Beatles' fan shouldn't miss this.

Just what I was looking for. Easy enough to be able to relax and enjoy these songs.

Perfect for my beginner pianist

easy to read music and just as easy to play.

I love this book. It has all the great ones and is spot on. I never thought that I'd be able to play so many great Beatles songs (and I'm just self taught!). I've put hundreds of hours into this book and I still have so many more songs to learn!!

I love the Easy piano books. I know people complain about there over simplified versions, but they still sound very nice. They are great for when you have company and you just want to play some catchy tunes everyone knows without allot of practice. I have The complete Beatles vol 1 & 2 also so if and want to spend hours mastering a song I can. If I just want to play a song quickly without allot of practice I grab this book. Yesterday, Let It Be, Hey Jude, Eight Days a Week, I want to hold your hand, all sound very nice even for the simplified version I recommend buying this book.
