I'm about to return my second set of Lo Scarabeo Bloodstone runes. The first set, I didn't try to work with much, but I found that there was a rune missing and two copies of a second. I've just gotten done inspecting the replacement set and several of the runes are carved on the flat side of rounded stones, which basically means these runes would always land face down and never appear in a cast, if you use the actual casting method rather than Tarot-style spreads. To me, that simply renders these runes useless. I'm going to send them back and get a set that are either carved in wood or on evenly carved stone.

I write this with such a sight!!!! This is such a nice set! BUT and BIG but, some stones are not green

in color, 3 of mine are reddish brown, still such nice stones, yes they are round, while some of the letters are printed on the flat side, u will have a hard time doing spreads with these. But they do look so nice for the most part, thick gold letters, one stone of course is unmarked.....and here is why I almost gave it 1 stars, I had two unmarked runes until i realized one was engraved with the rune mark but no gold paint. No I am not returning it. i will try to fix it. Such a nice buy but feel so disappointed. But should have figured the negative comments were right!!!! I just wish in my head they would have been made or rather packaged with better quality.

I had at least 4 different colors. From Green, black red, and light green. The seems on the bag were popped and the on one side was ripped. so the bag will not close with the drawstring correctly. I'll resew this but just forewarning it's not very sturdy.

Beautiful runes~ the stones have wonderful color and weight~ bigger than some other runes I have. The symbols are well carved and have gold ink highlighting them so they are easy to read. Comes in a nice velvet bag too. I have a few sets of rune stones and these are among the most beautiful.

The stones are everything but green! I bought these only because they appear to be green! Should not show them like this if they don't actually look like this.

The stones in this set are not straight green, they are all different shades because of the differences in the rock. I would love this set but 2 of the runes are so similar that they are hard to tell apart because when they were carved and painted they didn't make the lower arm of Eihwaz long enough. It looks similar to Laguz. The rune set is still nice and even though it takes a minute you can figure out the difference between Eihwaz and Laguz, I would recommend this set.

bought these runes and they are not Bloodstone, not sure what stone they are but not what i was expecting.

Absolutely Amazingly gorgeous, after cleanings them through incense they work terrific and the colors are beautiful. Thankyou
