## Customer Reviews

This book is a combination of stock photos and Wiki information snippets. It is not creative but information is ok. It is 21 pages: One paragraph introduction and 20 photos with a couple of sentences under each. It is part of a series that uses the same formula for various countries: official name, capital, map, population, climate, population, animals, tallest mountain, money, language,

flag, average age, religion, food. The level of information is not for small kids as it is Wikipedia text. Ali Julia review
