Customer Reviews

This is a pretty comprehensive book for DADGAD tuning. Loved the fact that it had the chord charts and scale patterns.

A nice intro to DADGAD. Maybe a bit pricey, but Joe deserves some cash for all the quality material he produces.

These books are the best

The instructive presentation is masterfully done. As a reference it is excellent in design and ease of use. Well done, Simon Pratt! For anyone pursuing exploration of alternate tunings (and specifically DADGAD) Simon's series of method books are the ultimate.

Great source book for DADGAD.....finally a book just for this tuning. After playing guitar for many years I have branched out into alternate tunings finding it a lot easier on my aging hands and tendons. This text is clear and systematic in teaching guitar with this tuning.

Excellent book made easier by using the available audio tracks.

useful

Very informative I was in the dark about other tunings
