Customer Reviews

Pick up Birnbaum’s official guide or The Unofficial Guide to Disneyland instead. There’s nothing in

here that isn't better represented in those books, with better editing, spelling and grammar. Pick this up only if you feel you have to collect EVERY Disneyland guide available.

As if the chapters upon chapters of helpful, useful information weren't enough - they include ride plans for all types of fans!

I am a huge disney fan and go at least once a year and I have already learned so many fun tips from this book that I didn't know before. I love that you can look things up based on the month you are going. People ask me for tips on going to Disneyland all the time and I have already used this book as a reference in the past few weeks since I have had it. Love this book!!! Can't wait to go back to Disneyland and try some of the amazing food and drinks it recommends!!!

Very good resort summaries. App available to use for wait times and to build schedules.
Recommended!

Nothing special here. It is "okay" but in comparison to other guidebooks out there it is pretty much at the bottom of the list. For a 2017 version (purchased it in April 2017) it still has things in it that changed last year so it is not terribly accurate (but it is accurate in some areas). This is a very cheap guidebook and not very professional. Granted it wasn't very expensive itself but you would think it could be done a little more professionally. The writer/s of this book didn't have an editor (or they had a terrible one) since there are so many incorrectly spelled words I stopped counting (I only started counting after about the first 5-6 when it started being very noticeable. And the grammar? Holy cow it is horrible. Please note that spelling and grammar are not the only things wrong, there is information in there that conflicts with the answers Disneyland itself have made public. I have to question the validity of the information. There are plenty of "good" guidebooks out there, this is not one of them.

Great info in this book. I first got book from library, but then ordered my own copy. Full of lots 90's info.

If you've been to Disneyland a few times, there is little here to interest you. Very poor coverage on hotels (Disneyland has 30 or so "Good Neighbor" hotels and they just mention 5). Birnbaum's book is a much better choice.

Not particularly useful advice and really poorly formatted.
