Customer Reviews

Titan Books is one of the leading publishers of fan culture books tied to all your favourite shows, films and games, and a source for some of the best and highest quality genre fiction and artist monographs in the marketplace today.

If you are a Rick and Morty Fan and love coloring then this is a must have book. The coloring book itself is about 12x12 inch squared and printed on 55lb smooth card stock style paper, pages are printed on both sides. There are several illustrations which are basic thin line art from the series included in this book and a few cartoon type cells which is what makes it so fun if you are a huge fan because you will recognize the scenes instantly, there is even an image from the very ending of the season 2 finale as well as general assorted images of the main characters and others. Some of the images do span across two pages and it's a little bit difficult to color within the crease or center of these pages but overall a really fantastic book.

This coloring book is amazing. It has all the iconic scenes as coloring pages plus lots of original content. It's way more pages than I expected. The only downside is that the lines are extremely thin -- unlike most coloring books (even adult ones), this is not suitable for anyone with visual impairments at all, even fairly minor ones. For example, if you can only read large print, this coloring book would not be suitable for you. This purchase was meant for my brother, who can't read text under 20 points even with glasses on, and he'll have a lot of trouble seeing these lines.

If you love Rick & Morty you will love this. This book will keep you entertained for hours. The pictures are very detailed. They are all in black and white there is no color detail on the interior of the pages of the book. The pages are crisp white pages perfect for colored pencils.

love this coloring book!!!!!! it has everything from the first two seasons and a few things from the third season. very detailed and awesome. couldn't of asked for a better product. the pages also seem a little thicker than normal books.

Ordered it hoping for a few good pages and was rewarded with a goldmine! All the best scenes and I actually laughed out loud while thumbing through it. Can't wait to share it with the office mates.

The back of it was messed up due to poor handling at the post office but I still love it!

The images are great, but the fine lines make it a little difficult to color at times. If the line weight was just a bit thicker throughout I'd have no problems rating this 5 stars.

I LOVE Rick and Morty so much! When I found this on , my jaw dropped and I preordered right away. It arrived today and let me just say, I was not let down at all. There is SO much to color. The book has so many pages! If you have a love for Rick and Morty as well as coloring, what are you waiting for?! Time to color!
