The Fundamentals Of Drawing

The Fundamentals of
DRAWING
A COMPLETE PROFESSIONAL
COURSE FOR ARTISTS

Synopsis

Anyone with a little persistence and the desire can learn to draw well - this is the starting point for The Fundamentals of Drawing, a practical and comprehensive course for students of all abilities. Opportunities for practice and improvement are offered across a wide spectrum of subjects - still life, plants, landscapes, animals, figure drawing and portraiture - and supported by demonstrations of a broad range of skills and techniques, including perspective and composition. The methods used in The Fundamentals of Drawing have been practised through the centuries by art students and professional artists. They are time-honoured and proven. Barrington Barber brings his invaluable expertise as a working artist and teacher to the task of showing you how to use them effectively to create successful drawings. No matter what your level of expertise, you will find his clear approach encouraging and his way of teaching inspirational.

Customer Reviews

I bought this book for my grand daughter, who is a budding artist. Since she was around six years old, she's showed a bent for drawing and sketching. In the past few years I've given her different

books o sketching: how to sketch apples or oranges,how to sketch trees, how to sketch fairly simple objects.Now she seems to be able to move on to more complicated subjects. This book seems to fill that need very well. She was thrilled to get this book, and hasn't put it down since she received it.

No book can teach you how to draw, they can only show the direction. This book does it incredible well.Examples are just enough concise. Usually its a 2 or 3 stages of picture from sketch to detailed result. Examples look good, making you want to draw like author.Book covers drawing using pencil and has a few chapters about pen and ink drawing.Highly recommend it for anyone who want to obtain a skill of drawing.

The best drawing book that I have and I have 40 or more. If you want to learn to draw well get this book.o.o

Great product. Thank you so much!

My first "Art" -book and a good read. Would have rated it higher had the graphics displayed better on my Samsung Tab3. Also, that might be a function of the Kindle App not allowing for an enlarged view on my device. Overall, 4 star rating is the best i can do. Enjoy.

I have several drawing books. This was recommended by my art teacher. So glad I bought it. The steps of development are so good and precise. What an asset to have this.

Very helpful for the budding artist containing a complete range of illustrating techniques.
