lots of great suggestions

Love this colorful book with oodles of great quilt patterns. I ordered it because I so enjoy reading the book to my grandkids.. Now I have lots of good ideas for quilts to make for them and others. Easy to follow instructions and great color ideas. I will cut this short so I can go quilt. Enjoy it!

This is one of my favorite quilting books and I recommend it to everyone. I loved reading the original story to my children when they were young and this quilt book incorporates parts of the story book including the pictures. The instructions are clear and easy to follow. Great book!

I love this book. I stumbled upon it at the library and had to buy it. There is only one quilt in this book that I probably won't make. I love all the rest of them. As a new quilter, I appreciate when the author

rates the difficulty of a project and all the quilts in this book are rated beautifully.

Really enjoy these books. This is one of four.

I really enjoy this book.

This book is full of amazing pictures of award winning artwork/quilts but with simple directions made easy for beginners to understand. I've never seen anything like this. Someone recommended it to me since I have just started quilting, however, it is a great reference book and full of excellent information that even an experienced quilter will want to own and hold on to.

The illustrations are stunning! The patterns and instructions are fun and easy to follow. If you love the "Quiltmaker's Gift" you'll love "Quilts from the Quiltmaker's gift too.
