Customer Reviews

Jon Rognerud is a recognized authority on SEO who has spent more than 20 years creating and managing web marketing projects, including positions at online giant Yahoo!/Overture. He is the founder of a top search marketing company and works to deliver SEO, PPC, Social Media solutions and consulting to mid-sized businesses.

This book is a wonderful step-by-step guide to SEO. It is written with just enough explanation and background so that the steps make sense--not too much not too little. In a constantly evolving field, this book covers a lot of ground without ever getting bogged down in minutia. It is well-written in a nice conversational tone, and easy to read. The links throughout the book are really useful as well as the resource list and glossary at the end. I would recommend this to anyone who wants a current, authoritative, effective guide to SEO.

I ordered this book for my son, it was delivered promptly and he really enjoys it. Plus the price was right for me. I will definitely use books again. It has helped enhance his knowledge of computers.

This is by far the best book ever written on SEO!! I have been a 'student' of SEO for several years now and the biggest challenge I faced when I first started to tackle this topic was the enormous overload of information. It was mind boggling and extremely frustrating trying to sift through the hype in order to get to an author, someone with 'real' hands-on experience, who could take you behind the scenes in layman terms and teach something that is considered a complicated subject. I not only purchased his first book, I quickly purchased the 2nd edition when it was released - I was not disappointed! I had dog-eared the first edition and thought that I would be able to move through his latest edition much quicker - I was wrong. They say sequels are not as good as the first release - maybe so, but Jon exceeds his first edition by miles. His latest release has now become my #1 SEO reference source in my library. Whether you are a novice or somewhere in the middle and you have avoided tackling SEO - STOP! Jon will take you by the hands and lead you in the right direction

using 'White Hat' SEO principles - period! Thanks Jon!!!BTW, to the reader - I was not paid nor was I asked to write this review.

Very prompt delivery. Exactly as described.
