Customer Reviews

"This brand new guide book fully does this land of 'eco-adventures in paradise' justice. The author sets out to provide a guide that will allow visitors to make the most of their vacation in Costa Rica and succeeds gloriously, vividly with a mix of I-want-to-be-right-there photography and text that is both practical and beguiling. In short: a tour de force in travel guides." Chris Robinson, The

Purchased this for a trip we just took to Costa Rica - best book ever! I only wish I had bought it sooner. This has great descriptions of the different areas of Costa Rica as well as hotels and restaurants (and their price ranges) in each of the areas. Highly recommend to anyone who wants to visit Costa Rica but is unsure what areas are best suited for the activities they want to do. Seriously, just buy it but it can and will be handy!

Absolutely the most comprehensive guide to Costa Rica. This book saved us lots of parking hassle (with people who pretend to be parking attendants) and gave a great bit of info about all the areas. We were super comfortable visiting several parts of the country after reading this! This book was in the car with us at all times for quick access if we had questions about certain areas. A must have if you are traveling to Costa Rica and want to explore this beautiful country!

This was the first travel guide I read cover to cover before a trip and IÃ¢Â™m grateful I did. The attention to detail, photographs, and organization with this guide was perfect in helping me identify locations that most interested me, hidden gems, and ideal times of year to visit different regions in Costa Rica. IÃ¢Â™d recommend using this travel guide to grasp all that Costa Rica has to offer and plan your hostel/eco-lodge/resort stays based on regions that most appeal to you. The educational depth of this book around culture, politics and history far exceeded my expectations. Not only did it leave me more prepared, it left me more excited for my trip. Looking forward to more adventures in Costa Rica!

Same information that is in 101 Coolest things to do in Costa Rica

Totally had great info and overall a wonderful read for our trip but the only reason this review will be 4 stars is that the book fell apart during the trip. The binding glue peeled off the paper so that was a bummer. Could be because Costa Rica is so humid but kind of ridiculous to use it a few times and then have it be a stack of papers.

Very good guide

I wasn't planning on buying a guide book since a friend had given me her Costa Rica lonely planet, but I stumbled on this and loved it so much I ended up with another guide book. This has some wonderful information without being overwhelming. Best guide book to anywhere I've ever used

Great book but the binding did not hold up well in the humidity of Costa Rica. I will probably try to reinforce the glue or something. This book was great for planning activities during my two week trip!
