Lawn Care For Dummies

Synopsis

Only one thing is standing between you and a fabulous lawn: It's called *Lawn Care For Dummies*. If you want a spiffy and well-coifed lawn (and not the overgrown, unruly one that people comment on when they pass by your house), you'll find everything you need to know to help you make your lawn the most dazzling spectacle on the block. Let authors Lance Walheim and the gardening experts at the National Gardening Association treat you and your yard to a megadose of lawn care information. In *Lawn Care For Dummies*, Walheim and the NGA give you the dirt on all the essentials, including how to

- * Design a low-maintenance or a high-maintenance lawn
- * Evaluate the pros and cons of planting a lawn from seed or starting one from sod
- * Discover how often you need to water your lawn without under-watering it or waterlogging it
- * Choose a mower that's right for your grass type
- * Deal effectively with wicked weeds and pesky insects
- * Create alternative lawns, such as ground cover plants, decks, and patios

Lawn Care For Dummies also features a beautiful color insert with photos illustrating the various types of lawns found in yards across the world.

Customer Reviews

If your neighbors' lawn always resembles a beautiful green carpet while yours looks like something that would cost Tiger Woods several shots, you could use some practical help. Trust the Dummies folks--you really can have a great lawn without breaking your back every weekend, spending a fortune on sod, or poisoning your pets. *Lawn Care for Dummies* takes you through all the steps: choosing the right grass, planting the seed or laying the sod, installing an irrigation system, fertilizing, aerating, watering, and mowing. It also helps you avoid (or conquer) the Big Three:

weeds, pests, and disease. Finally, the pot of gold at the end of the rainbow--you get to enjoy your lawn! In the spirit of all Dummies books, there's a list of 10 lawn games at the end. Bocce, anyone?

"I would recommend this book to anyone starting a new lawn or improving an existing one." — Kevin N. Morris, Director, National Turfgrass Evaluation Program "This is the one book you should have, keep handy, and use often!" — Doug Fender, Executive Director, Turf Resource Center, Rolling Meadows, IL Full Color Section Highlights Ideas for a Beautiful Lawn! Grow a Lush Lawn — a Cut Above the Rest! No matter where you live, what you do, or how many kids you have, you too can grow a great garden of grasses — quickly and easily. Discover tons of time- and water-saving secrets for better planting, fertilizing, weeding, and mowing. With easy-to-follow instructions and lots of illustrations, *Lawn Care For Dummies*Â® brings you everything you need to know to grow a lawn that's the envy of the block! From Sod to Sunday Naps — Your Complete Guide to Lawns Compare the pluses and minuses of planting seed, sod, sprigs, stolons, or plugs Choose a grass type that thrives in your climate Unearth winning techniques for repairing broken lawns Discover ten surefire ways to help drought-weary yards survive Control pests with environmentally friendly methods that are safe and effective Select alternative ground covers that are practical and good looking Install a permanent, in-ground irrigation system Also look for Hungry Minds' *Gardening For Dummies*Â®, the fun and easy way to grow a gorgeous garden!

Best purchase I've made in a long time. Having recently bought and moved into our first home, we had no idea how to reclaim our lawn from the weeds that were everywhere. This book helped us learn so much about lawn care in general, as well as how to take care of the pesky weeds. Full of a lot of very useful information, and very well organized!!

I learned a lot and successfully used this book as a guide to kill off and re-seed an entire large yard. The new yard came out fantastic and totally weed free. Just don't take shortcuts. Be ready to spend money and work hard.

Great book I lean alot

Informative book and easy to understand.

Excellent book, learned a lot.

The book is great for people like me but just buying it does not improve your lawn.

very insightful

Great!!!!
