Customer Reviews

"Gleason's Gym is an icon in the world of boxing, and Hector Roca is one of the best trainers in the nation. I'm sure that any woman who follows the program outlined in this book will get into the condition she's looking for. Follow it, learn it, put the gloves on, get in the ring, and look great." -- Michael Thurmond, author of *6 Day Body Makeover*

"Illustrations and clear instructions make this a great primer even for women who have never laced up a pair of gloves." -- Detroit News

Hector Roca is an icon in the boxing world, most recently named the number one Spanish-speaking trainer in the world by International Boxing Digest. Roca is a former two-time Olympic cyclist from Panama. He has coached thirteen World Champions and trained Hilary Swank for her Oscar-winning role in Million Dollar Baby. Bruce Silverglade is the president and owner of Gleason's Gym since 1983. He has served as the president of the Metropolitan Amateur Boxing Federation, chairman of the National Junior Olympic Committee, and member of the National Selection Committee.

I found this book to be well done. It has a 4-week workout schedule with three workouts per week. I am on the third week and not only are my arm muscles developing, but they glow when I finish a workout and I feel great. This is a full-body workout - you don't stand still and push your arms around. In addition to 3-minute round-style combo punches and defense, you jump rope and do strength exercises (push ups, crunches, flutter kicks). The instruction is well-illustrated and the book does a great job of motivating you. This can be an intense workout, but you'll feel stronger after each one. You really need to put your all into the workout - no half-hearted punches, and no cheating!! I purchased this book to start boxing for fitness, and I love it. These are actual punches and combos you could take to the ring someday, if you wanted. I also purchased a DVD boxing video and I find myself drifting off and going back to this book because it encourages you to practice numerous combos and come up with your own unique workout, not a boring jab, jab, right, hook, repeat 10 times. Get a pair of gloves (mine are pink), pick up this book, and really work off the pounds.

I ordered this book because I started boxing 7 months ago and I wanted to take my training to a new level. I really like how this book is written and the explanations it gives on not only the techniques but the training. It lists it day by day and makes it easy to follow. The book is easy to read and provides a lot of great information.

Book was made well and nice looking, but I never did have time to get into it. So after 3 years I got rid of it.

Not really what I was expecting. Thought it would be a lot more moves and examples of moves didn't really expect the background of how the gym started. Sorry that's interesting if that's what you

want just not what I wanted.

This is the best boxing book I've found. It has everything in detail! The only problem...once you finish the entire work out, there's nowhere else to go! No further information or instruction! I'd love a sequel! :) Their suggestion is to go to a gym. But where that's not possible it was just frustrating to get to the end of their workout and really not know where to go next with it.

Gleason's is the Mecca of boxing and anything they endorse is worth a look, my daughters are fascinated by boxing now and I want to set them off on the right foot. The format is easy to follow and the techniques are well illustrated. To prove it works my girls are doing the drills on their own and both have lost over 5 pounds in the last month.

This book was fantastic, it helped guide me to figuring out that boxing was the sport for me and has really helped open door ways to other facets of boxing and training that have bettered my self, emotionally, physically and spiritually. It's easy to read, easy to follow and the experts of insight are phenomenal.

Just rec'd this book the other day and I'm impressed by all of the good information. Although highly detailed I did find myself looking at YouTube videos for visual examples of hand wrapping, bobbing & weaving, and other techniques that a person like me really needs to "see." I've got my gloves and wraps but I wasn't aware that I'd need a jumprope so I can't start the program yet. Once I do, I'll update but for now, I just love the detail and ease of following the program in the book.
