The Meridian Ascent (Rho Agenda Assimilation Book 3)

Synopsis

In their battle to save Earth from becoming another conquest of the alien Kasari Collective, Mark and Heather Smythe have struck crucial blows against the enemy. But their best efforts have still failed to derail the completion of the wormhole gateway that would give the insidious extraterrestrial invaders access to the planetâ™ and doom humankind as helpless slaves of the Kasari hive mind. The Smythes and their intrepid alliesâ™ including the mentally altered humans, The Enhancedâ™ stand ready to beat back the Kasari onslaught once and for all. Not by mortal combat, but with scientific cunning. Still, the success of their plan depends on a daring stealth mission into the heart of the aliensâ™ nerve center on Earth. And multiple threats lie in waitâ™ including the ruthless Kasari commander, a brutal double agent with a deadly vendetta to settle, and the alien entity Khal Teth, who wears a human face but is ready to strike with monstrous force. In this stunning conclusion to the Rho Agenda Assimilation by the bestselling author of *The Second Ship*, the small but fierce band of altered humans and Earthâ™s resistance fighters face their greatest opportunity to stop the Kasari. But with the remnants of humanity and a battered Earth caught in the cross fire, can they secure a victory without sacrificing everything theyâ™re trying to protect?

Customer Reviews

The series that began with *The Second Ship* turned into the best Science Fiction, espionage that I have read. I just loved the series and the three teenagers that discovered the second space ship maturing to adults with amazing talents and adventures. Then there is Jack and Janet the two kick ass agents with their amazing adventures. And all the other characters like Raul,,Dgarra and VJ an artificial intelligence that makes herself human.Also Jamal and Denise Jennings and her creation Big John. There are plenty of bad guys too. I hate to see the series end with this novel, but I have thoroughly enjoyed all the stories and commend Richard Phillips for his terrific imagination.

I purchased all eight of the books that were already released and pre-ordered the last book on August 2nd. I finished all nine books on August 17th. That is just a little under two days per book. Back in the days before cable tv or the internet, it was not unusual for me to read a book in a day or two. It is very unusual now since I have so much else going on. Add to that the fact that time itself is speeding up with where Gaia is headed.I am sad to see them end. I wish for movies of them but I think they would have to be animated since real actors would probably age out of their role, there is just so much to cover.I highly recommend all of them. I read them in date order since at the time of purchase, I did not know the author recommended chronological order. Still very enjoyable.

Fantastic book with lots of interesting characters. Although it's supposedly the end of a 9 book series, I'm still quite interested in these characters and what happens next. I'm a big fan of Jack Gregory, and maybe his character will be further explored. Maybe he can dismantle the...wait...can't finish that sentence for fear of spoiling the plot.A very fun and well written book.

The closure to the adventures begun in the earlier stories was every bit as entertaining as one might hope. The author does an exceptional job of keeping the various plot lines running in the background yet so obviously tied to the part you're immersed in at the moment. Excellent work!

Love the Rho universe and *The Meridian Ascent* did not disappoint! Jennifer, VJ, Dgarra, and Raul return to earth to help fight the Kasari who are assimilating earth. Rob is growing up fast but is only 10 in an adults body. Very much recommend the entire series!

I loved this series sooo much, but have to agree with others. The number of threads are taking away the tension of the different plot lines. No wonder the series is ending. This fractioning cannot continue. I've also felt the end forced and weak. I would've loved to follow each group's future adventures by different spinoffs.

the ending felt a bit weak to me at 1st.mulling over it more, i came to realize that there could b no better outcome for humanity, especially w d current state of d world & d screwed-up value (moral, ethical, social, economic, religious, political, etc) systems now & d direction in which they r all heading.i for one would want to continue to live on Earth at the end....& not to laze around either....i think that i would b able to live & do better in that world.

Starting with The Second Ship, this series of sci-fi books has kept my interest at the highest level. This has to be the best sci-fi series that I have ever read! 5 stars all the way! Well done Richard Phillips!
