# Tasting Beer, 2nd Edition: An Insider's Guide To The World's Greatest Drink

## Synopsis

Everyone knows how to drink beer, but few know how to really taste it with an understanding of the finer points of brewing, serving, and food pairing. Discover the ingredients and brewing methods that make each variety unique, and learn to identify the scents, colors, flavors, and mouthfeel of all the major beer styles. Recommendations for more than 50 types of beer from around the world encourage you to expand your horizons. Uncap the secrets in every bottle of the world's greatest drink!

#50 in Books > Audible Audiobooks > Nonfiction > Lifestyle & Home > Cooking #56

in Books > Cookbooks, Food & Wine > Beverages & Wine > Cocktails & Mixed Drinks

## Customer Reviews

The first two thirds or so of this book was very readable and entertaining, even when describing scientific subjects. The remaining part of the book is filled with information that will take me longer to process, such as information on styles, or does not apply to me, such as descriptions of draft systems and their upkeep. Overall, a very useful book for someone starting their exploration of beer.

The first edition of this book provided an excellent basic education in all that is beer, and this edition just improves on it. This book helped me through the Cicerone Exam -- the book provides not only the basics for the most novice taster, but also some of the most in-depth information that even brewers and advanced tasters will reference on a regular basis. I can't recommend this enough.

If you love craft beer and history then this is the book for you! Well written, well organized book with tons of interesting information and pictures. Just don't become \*one of those\* beer snob people

after you educate yourself on the history of beer! (Those people are annoying and no one wants to hear it while they are downing their favorite brew next to you at a bar.) Great book!

If you're studying for your cicerone, this is the book to get. Very in depth.

If you want to learn how to evaluate beer this book is a great starting place. The new edition is bigger and better.

Pleased with purchase.

Great book, Easy read! Recommend to anyone who wants a reference book for tasting and enjoying beer

very good book!!
