Freddy Fumple And The Mindmonsters

Synopsis

"Freddy Fumple and the Mindmonsters is most highly recommended. Marvelous!"- Readers' Favorite (5/5 STAR REVIEW) Freddy Fumple's world is about to turn upside down, in this nail-biting, thought-bursting, hilarious and spectacular adventure that will enthrall you from beginning to end. Freddy Fumple is not like most other people. For one, he sees things that others can't see. What is more, he likes to ponder upon a very special question: «How far is infinity?» When he and the rest of his family move to an old house out in the country, everything is about to change. Soon Freddy is on the verge of discovering a world beyond his wildest dreams. A world that desperately needs his help. An adventurous place where he finally can get an answer to his giant question. Providing, of course, his neighbor doesn't make stew out of him first. And that he manages to help the confused ghost which is poltergeisting his new room. And avoids being devoured by the terrifying mindmonsters.

not put Freddy Fumple down. Great book!!!"- AuthorsReading.com

Ever wonder about the origins of the legends of elves, dragons and trolls? Did such mythical creatures ever co-exist with man? If so, where did they go? Prepare to get your questions answered. Freddy Fumple and the Mindmonsters gets off to a slow start, packed with lengthy scene descriptions and introductions to Freddy and his family. The pacing changes, however, once Freddy enters a mysterious portal. From there on in it's an action-packed thrill ride in which Freddy has to step up his game in order to save a world that is falling apart. This book is packed with ideas, and while its acceleration is agonizingly slow, once it picks up its speed, it's an unstoppable force 'til the very end. Worth the read!

Yes, this is a book for everyone who has an open door to mystery and fantasy, driving you thru a lot of action, twists and turns with an underlaying tone of humor. The story takes you into a world with ordinary people stumbling into extraordinary worlds, meeting extraordinary and strange creatures. As the story unfolds and reveals more of the mystery, it can also make you ponder about the world we live in and how it all hangs together, which is an underlying ingredient and driving force of curiosity from both Freddy Fumple and the author ;) As I have known Vegard for many years, I did actually read the first edition of Freddy Fumple in Norwegian ten years ago, so it was nice to read it again, the re-written story now translated into English. Have in mind I am not a native english speaker, but I must say in my ears the english translation is really brilliant, creative and alive. And it was a joy reading it a second time, not remembering much of all the twists and turns and creativity popping up all the time.

Wonderful story full of fantasy. You will love it. Great characters and wonderful writing. Full speed ahead for him and hilarious situations. Oh yes, there are also ghosts, angels, dwarves and more magical creatures than you can imagine.

So fun to read about Freddy, Jonathan and all the other funny characters that do so many strange and mysterious things. Exciting story to read because there is so much happening all the time. I recommend the book to both boys and girls!!:)

Very interesting book to read. I like all the chapters in the book. I'd give it a 3.5 stars I would like my friends and family to read it.

A wonderfully funny adventure story; well-written with detailed background information to a fantasy world for young and old. Language is age-appropriate and makes the characters real and believable.

Magical
