Naughty No More

Synopsis

Thought you couldn't train your cat and resolve troublesome cat behavior challenges? Yes, you can! Clicker training, combined with other friendly, positive behavior modification techniques can effectively solve cat behavior problems and train your cat in a way that will be quick and easy for you and fun for your cat. Clicker training can also improve your cat's activity rate, attitude and, more importantly, strengthen the bonds between you and your cat. In this easy-to-read beginner's guide, Marilyn Krieger, a leading clicker-training expert, tells you how to teach your cat to: sit and stay and not dart out of doors; not scratch the furniture; have stress-free introductions to new cats; stay off the table and counters; get along better with you, your guests and other cats; have a stress free association with both the cat carrier and the trip to the veterinarian; do tricks and much more!

"Cats love clicker training....This book can make a better life for your cat and a happier cat in your life."—Karen Pryor, author of *Reaching the Animal Mind*; I recommend *Click Your Cat to Better Behavior* to cat owners who are training novices and to anyone just starting out in clicker training.—Bob Bailey, animal trainer; This book delivers the tools we need to turn catastrophes into learning opportunities, which is the key to living and learning with animals."—Susan G. Friedman, PhD, Psychology Professor, Utah State University; Krieger presents sensible, easy-to-follow training solutions for the major issues that vex cat owners [in this] well-thought-out, delightfully written training book that belongs in the library of every cat lover.—Alexandra Kurland, author of *The Click That Teaches*

Marilyn Krieger, certified cat behavior consultant, is a nationally known cat behavior consultant, who helps resolve cat behavior issues using positive and humane methods, modifying behavior through clicker training and altering the cat's environment. In addition to writing cat behavior columns for both Cat Fancy Magazine and catchannel.com, Marilyn's articles and columns have been published in USA Today, Catnip, Tufts University publications, Cats USA as well as other journals. She also frequently appears as a guest on television and radio programs, providing valuable tips and insight on how to improve cat behavior. Marilyn owns The Cat Coach, LLC, a cat-behavior consulting business. In addition to solving cat behavior challenges for her clients, she offers seminars, lectures, and classes on cat behavior and cat training. She is a member of the International Association of Animal Behavior Consultants (IAABC), for which she sits on the board of directors and co-chairs the Cat Division. More information about Marilyn is available on her site: www.thecatcoach.com.

I think my cats will always be naughty, but this did give us some new ideas and things to try. We did train them to do some things for us - being able to call them and have them come, and jump where I want them to, and (mostly) stay is useful.

Well written and organized. The author provides a lot of information about basic behavior management theory which is fascinating and helpful. Of all the basic books on clicker training cats this one was my favorite. It provides far more than guidance on dealing with behavioral issues. It's also a great intro to clicker training specific to cats. One tip provided that was particularly helpful was how to find an alternative for a traditional clicker if your cat is afraid of the clicker noise. My cat was scared and ran from traditional clicker sounds. This book suggested using the click of a ballpoint pen, it worked beautifully. In addition to basic instructions in clicker training there are also case studies and a chapter on training tricks. This book has a bit of everything for cat clicker training. It's obvious the author is very knowledgeable about the science and practical skills required to clicker train cats. It's so nice to have something like this that is specific to cats. The majority of the clicker training books are dog oriented.

My cat is named Norman Bates because, well....he's psycho. Very strong willed, stubborn, vindictive, you name it! He's also 7 years old, so I thought that it was impossible to train him, or any cat for that matter. After going through 2 sofas in 3 years due to his scratching, (down to the wood

frame!) I was desperate. A friend recommended this book and I can't tell you what a lifesaver it has been. My cat took to the training within 2 days, and has completely changed. He LOVES his training sessions, and learned how to sit after only a week. Although I wish there was a little more specific detail in the book, I still gave it 5 stars, and you'll be able to quickly figure out whatever details are missing.

this book helped a lot, you would never think of all those little details when having, bringing, introducing cats at home

Can't learn enough about my fuzzy best friends!

May be good for a beginner cat owner. I tried everything, finally had to hire an animal behaviorist and an animal communicator.

I was at my wits end with my cat peeing on blankets, and this book was highly recommended for tips on living with cats. I found a lot of information in the book very useful.

good book
