The Fame Game

Synopsis

In Hollywood, fame can be found on every corner and behind any door. You just have to know where to look for it. Nineteen-year-old Madison Parker made a name for herself as best frenemy of nice-girl-next-door Jane Roberts on the hot reality show L.A. Candy. Now Madison's ready for her turn in the spotlight and she'll stop at nothing to get it. Sure, she's the star of a new show, but with backstabbing friends and suspicious family members trying to bring her down, Madison has her work cut out for her. Plus, there's a new nice girl in "reality" townâaspiring actress Carmen Price, the daughter of Hollywood royaltyâand she's a lot more experienced at playing the fame game... When the camera's start rolling, whose star will shine brighter? Filled with characters both familiar and new, Lauren Conrad's series about the highs and lows of being famous delivers Hollywood gossip and drama at every turn.

Madison Parker made a name for herself as best frenemy of nice-girl-next-door-turned-reality-celeb Jane Roberts in the L.A. Candy books. Now sheâs ready for her turn in the spotlight and sheâll stop at nothing to get it. But with backstabbing friends and family, relentless paparazzi,

and tabloid scandals she can't control, Madison is going to have her work cut out for her. Plus, there's a new nice girl in town—Carmen Price, the daughter of Hollywood royalty—who's a lot more experienced than Jane was at playing the fame game. . . . Filled with characters both familiar and new, Lauren Conrad's new series about life in front of the camera dishes Hollywood gossip and drama at every turn.

I've been a fan of Lauren Conrad ever since her Laguna Beach and The Hills days and have always loved her chic style. I considered purchasing this book years ago when it first came out but didn't because I had my own style and was fine with it. Now, oddly enough, I'm in my mid-thirties and a mother of twin toddlers and I realize I am not part of the target audience for this book. However, lately I've become more interested in learning more makeup and style tips because it's fun! Lauren Conrad Style is a well-written style guide that contains many aspects dealing with fashion. This book is divided into three parts: Fashion, Beauty, and Lifestyle. Within each part are chapters devoted to different categories within those topics, such as "Building Your Wardrobe" and "Accessories" in Fashion, "Makeup" and "Hair" in Beauty, and "Work and School" and "Events and Parties" in Lifestyle. There is information in this book that tells you how to use the same clothes and make it into various outfits using different accessories, dressing for your body type, and how to do your hair and makeup. Personally, I enjoyed the sections on makeup and hair the most since I am looking for fun tips so I can have fun doing my hair and makeup (when I actually have the energy for this since my twins keep me pretty busy). There are a lot of expensive labels and stores mentioned, which may not be possible for some readers to buy and shop at, but it's nice to see pictures of Lauren Conrad in her stylish clothes so you can go to a store of your choosing and find something similar. Overall, I like this book and have learned several things from it. One thing to note is that Lauren Conrad also has a book called Lauren Conrad Beauty, which I have as well. Beauty contains much more specific information on hair and makeup whereas Style gives more of an overview so if you are more interested in the hair and/or makeup aspects, I would purchase Beauty. I would say this book is geared more towards teenage girls and women in their twenties but there is nothing wrong with women older than this buying this book! If anything, I can learn some tips from it to pass on to my daughter when she reaches the teenage years and she can read this as well. The price point is certainly well-worth it and there is a lot of information within the 230 pages of this book so I'd definitely recommend this book to fans of Lauren Conrad or anyone who wants more tips on fashion!

One of the things I love about Lauren Conrad is her classic, elegant, yet chic style. Watching "Laguna Beach" and "The Hills" as a teenager, I grew up liking L.C and her fashion sense. I was so excited about this book, and has an amazing (and cheaper) price than most retail/bookstores. The book did not disappoint- if I could buy enough books for all my girlfriends I totally would. This book is a great gift, treat, and personal staple for anyone even remotely interested in the fashion industry, or just the ladies who want in on L.C style tips. I love that this book has two angles, Lauren's personal lifestyle & tips, while at the same time, it includes a lot of classic/helpful information from other sources (such as her styling crew, and other tips she's learned from designers/makeup artists). A lot of the content in this book is also similar to plenty of classic and timeless tips you would get from Teen Vogue, Lucky Mag, and People's Style Watch (which is great, you get a big magazine with helpful tips in one book). The book is overall great- it involves many categories, such as: 1. Shopping tips 2. Closet organizing 3. Makeup 4. Hair 5. Basics every girl/woman should own 6. How to shop/dress for your body shape. 7. Accessories and more!

Very happy to have gotten this book in such a fast time! I got this same book about 4-5 years ago and was so in love with it. Unfortunately, I either ruined it or lost it and have been yearning for it for ever since. I finally found this on here and I was so excited to get it. The book was in perfect condition as well!

I love Lauren Conrad. I watched her on the Laguna Beach and The Hills. I fell in love with Lauren because of her personality and style. I love the formatting of her book and learned some new style tips by reading her book. She covers style from casual to special event which nice. I would recommend this book if you need help with your personal style.

It's simple and a pretty good read. I've always loved Lauren's simple, elegant, and chic style so I figured why not read a book based on her "style". Not the best style book in the world but then again style is what YOU make it. Lauren gives helpful tips on finding everything from the perfect white tee to wearing a simple black dress 5 different ways. This book is all about the essentials makeup, hair, clothes, accessories. Features tips on what to wear on a first date, to an job interview, even a casual night out. You may not be able to create a whole new wardrobe but you'll surely pick up a few helpful tips. I took off a star due to the fact that most of her tips were designer related, not everyone can afford YSL, Balenciaga, and Hermes other than that good read.

I got this book for a birthday present for someone who has loved Lauren Conrad from the beginning. I have never really been a fan but after reading this book I have a totally different opinion of her. This is a great book about the title, Style. If you are looking for trendy up to the moment everything, this isn't the book for you. This is a book that helps you form and define your own personal style. You learn how to really dressy yourself so that you are always looking you best. I would recommend this product to everyone people with style and those who are looking to get it!!!

I purchased this book because I have always liked Lauren Conrad's fashion style. I'm so glad I bought this book. It has very helpful informations and ideas in fashion. I would definitely recommend it for a friend.
