Demon Child (Clem Starr: Demon Fighter Book 1)

Synopsis

My life used to be so simple. Get in, outsex a pesky incubus and get out with the cash. The vampires changed that. I hate vampires. Firstly, the Demon Child woke and went on a feeding spree. He's strong, lightning fast and as cute as a button. I fight demons by using my sexual aura, which makes hunting a vamp who looks like a kid totally wrong. Secondly, the new mayor wants the paranormal world exposed. Not only does that cut into my income, it will lead to open warfare. Thirdly, the only ones paying me to hunt the Demon Child are a pair of screwed up vampires: Nic - the motivational speaker, I don't know whether I want to kill him, screw him or cut off his perfect face and wear it as a mask - and Kisho, who would be the perfect man, if it wasn't for his vampirism. Oh, and that he's Nic's bitch, when I want him to be mine. The mayor wants me on his team, I'm under investigation by the Demon Fighter Council - working for the enemy is strictly forbidden and, for the first time ever, I doubt my ability to get the job done. Could my life get any more complicated? Oh yeah, the Demon Child has a secret that makes him unkillable. Warning: may contain traces of unicorn.

rcvd an advanced reader copy from the author for giving my two cents. wow...that is one word to describe this book. I couldn't put it down. it had me from the beginning and I was entranced. Clem is demon fighter extroidanire hired to kill smtg that has reeked havoc on the city... and not only that.. a vampire hired her. she needs the cash but know working with vampires is against the code. but clem is highly attracted to kisho and has a hard time keeping unsexy thoughts about him.

motivational speaker Nic, is the vampire that hired clem to stop the demon child...but how do you stop the unkillable. at a rave, the demon child takes a shine to Clem aka pretty lady. clem can't see this cute boy doing all that carnage. kisho and clem manage to find the child only to hide when the most terrifying being they've encountered enters the room. clem has never seen sure evil and she knows the truth has been hidden from her. she is bound and determined to seek the truth. on top of that the mayor has hired her to extinguish the vampire problem but can she do it? will clem finally learn the truth? will she come out alive? great read!!!!

I voluntarily received an ARC in exchange for an honest review.I believe that Laurell K. Hamilton has a twin and her name is Kat Cotton. Demon Child was a fantastic start in this series. Clementine takes charge and takes no prisoners! I loved the dynamics between Clem, Kisho and Nic. The snarkiness between Clem and Nic has me laughing out loud; while the relationship is so charged with sexual tension. One thing that I liked about this series versus Anita Blake Series is although there were sexual tensions like for instance when Nic was disciplining Kisho it was tastefully done. I highly recommend this book.

I do so love smart mouthed, kick butt female heroines. Who would have thought a demon huntress with a sassy attitude and a super secret power would team up with a motivational vampire? Maybe pigs can indeed fly? Join Clem and this motley crew as she fights demons and tries to take down a vamp that even the vampires can't take down... Oh yea and he's a vamp that was turned while a youthful teen... Hence the name Demon Child. This book has oodles of adventure, one uber sassy female demon huntress, a grump vampire and his 1/2 vampire sidekick.... Buckle up and get ready for a really eventful ride!!

Clem is the next demon hunter you want to read about. Reminds me of Kim Harrison's series and takes me right back to the excitement of hunting demons and vamps.Clem has a rich rival - who isn't very good at his job. A charismatic mayor who wants to expose the underworld and a vampire

called the demon child - a teenage vampire who is wrecking havoc on her city. She wants to catch the demon child and her friend from high school offers her a boatload of cash to do so. But she has to work with a team, a team headed by a fool! She declines to work on the team. She gets another offer to work for vamps - but that is against the regulations. She steps right into that trap though and ends up under investigation by the demon hunter council. Great story and action I highly recommend picking this up and I can't wait to continue the series!! voluntarily reviewed an Advance Reader copy of this book

This is book 1 of a 3 book series. The 2nd and 3rd books are already listed as pre-orders on .com. I don't know if you want to wait until mid-September, 2017 when the next book is released before reading this one. If you read a lot or just have a hard time remembering what you had for dinner last night, it would be better to wait so that you can remember the characters from this book. They will be making another appearance. Kat Cotton has written a surprisingly lighthearted fast-paced action-packed adventure into the paranormal/fantasy world. There are vampires and unicorns (oh my). It's difficult to put down and I highly recommend this book to readers of all genres. I think you'll all find something to like here. I received an advanced reader copy of this book in exchange for my honest review.

This book was a super fun urban fantasy. I looove Clem Starr as the kick-ass demon fighter who doesn't want to admit she needs people in her life. I also thought Kisho and Nic were perfect, as her slightly unwilling partners in a mission to uncover the mystery behind people being attacked in the city. Kat Cotton has an easy writing style that made the pages fly by. When I got to the end, I was surprised to find that it was in fact a full-length novel I had just read, and not a novella. I cannot wait for the next book in the series.

An out of this world journey of fun and fantasy! A definite One Click Clem - is the quintessential demon hunter with just a touch of kick @ss and a dash of quirk - absolutely love her character! Nic is a self-absorbed narcissist that had me constantly on the fence between loving and hating him Kisho - again love and hate relationship - he would flip rolls between subservient and dominant - he made me feel lust, love, and the need to knock some sense into him This was a slow to burn book - Cotton built an excellent world with just enough background and detail to leave me wanting more but still feeling fulfilled Entertaining and action packed with so many hidden gems within the pages The twists that are unveiled are absolutely mind bending and so left field - and I am pretty creative! voluntarily

am reviewing an Advanced Reader Copy of this book

This is a fast paced fun urban fantasy read about Clem, a kick a\$\$ demon hunter who takes on the job to stop the Demon child-read vampire teen. She is hired by vampires Nic and Kisho a big no-no that has her under investigation by the council. This is extremely well written with world and character building that is excellent. There are enough twists and turns to keep most enthralled. I know I was surprised how fast the book read. The snark between Clem and Nic was hysterical, I found myself in laugh out loud situations more than a few times. A very enjoyable read and I look forward to books 2 and 3. Recommended. I received a complimentary copy of this book for voluntary review consideration
