Customer Reviews

I wish I had had this from the very first day of nursing school. This book is an absolute must have for anyone in nursing school, and especially NP school. Absolutely love. Truly use on a daily basis. Not one of those throw away books you use for 1 semester, then toss. You will use this for LIFE.

Super convenient, helps during clinical and helps with my SOAP notes!!

Excellent book. still faster than looking up online. Good condition even used and since used, good price.

I have used this book for my advanced pharmacology and advanced assessment courses and I wish I had gotten it sooner. It is fantastic. It goes through many common diagnoses that my case studies are based on and offers information required for a in depth SOAP note. Pharmacologic and non-pharmacologic treatments are listed. I really can not stress enough how valuable it has been so far in my studies.

Evidence-based guidelines!

The process in the book was awesome, however, it is a large book and should be honored as a paper back. The hard cover will keep things in order but I think the kindle will better fit instead of a giant textbook. But, overall, the materials in the book was great.

Great read and up-to-date information.

Excellent condition.
