The Savannah Walking Tour & Guidebook

Synopsis

Freshly updated for 2017, this book is a "must have" for anyone planning to visit and explore Savannah. It is a comprehensive guidebook that contains images and information on over 90 significant points of interest in Savannah's Historic District. It also includes 4 carefully designed walking tours that will guide you to the various points of interest. Historic photos, drawings and maps allow you to step back in time while experiencing Savannah's beauty today. The tours span Savannah's history from its earliest days as a British Colony to the modern day setting of books and movies. There is no need to buy an additional map of Downtown Savannah as this book contains easy to follow maps of each tour. In addition, it features an overall map clearly displaying all of the points of interest on a single map. If you are not into walking, that is not a problem. Simply utilize the alphabetical index to quickly reference information on most points of interest within the Historic District.

Customer Reviews

Paul C. Bland is a fourth-generation native Savannahian. He is married to his beautiful wife, Paula, and they have two sons, Cameron and Ethan.

I bought this book before my trip to Savannah. I thought the booklet was well written and very informative for self-guided walking tours of the historic district of the city. True, it doesn't go into deep detail of everything, but its a really nice overview of the different monuments, historic locations, and buildings. There is far TOO much history there to cover in any one book. I only wish it had been a bit smaller; it's overall size is that of a magazine. If it was half the size and twice the

pages it would've been absolutely perfect to carry or tote around all day. Regardless of the size, I would definitely recommend this guidebook to anyone planning a visit to the Savannah historic district.

I wanted to like this pamphlet - it had numerous small wonderful vintage photos and drawings of what Savannah used to look like. I was frustrated that many stops on the walking tours had photos of the newer current buildings along with photos of the wonderful older buildings no longer present. While it was interesting from the history stand point, I didn't find it as useful for walking tours. Still good, but not great.

This book was very helpful in showing what we wanted to see and do.

We liked having this resource as we walked the city. We did three of the four tours listed in the book. It helped to understand what we were experiencing, though my husband tired of looking at a location only to hear of what used to be located on that spot in the past. Harder to appreciate what had been lost and replaced in historical buildings and they were frequent. The tip of the echo chamber on River Street was fabulous!! We encountered young teens skateboarding the spot who did not know anything about this treasure!! So fun to know the inside scoop! This guide is sold in several places in Savannah. So if you order this... put your name on it as I was questioned about paying again at a shop on River Street. She finally believed I had bought it on , but it took a bit of convincing. Just FYI.

Nice starter book

not very informative.

Great walking tour guide for Historic Savannah! Easy to follow, very detailed. A great purchase for our July 2015 Savannah trip! Tours can be pricey in Savannah, so this was a wonderful option to tour at your own pace. Four different walking tours are described in the book, but you can follow them in any way you wish. We will be taking this guide with us on future trips to Savannah!

Make your trip memorable
