Customer Reviews

I purchased this copy used. It arrived fairly quickly and in the condition described by the vendor (sort of worn but not bad). I was surprised by the number of pages! I'm using it for researching various ethnic groups/hairstyles for dollmaking, and this book is a treasure trove of current and past hairstyles...I don't think an area of the world has been missed, and I don't see where I'd need any additional resource for research. The illustrations are clear and detailed. I'm happy with it!

I bought this book for research purposes for writing. This book contains some thousand drawings of hair styles from around the world. It's tells the regions the styles are from, but not the actual style names. The drawings are decent, usually between 1 and 4 to a page, occasionally more.
