# The Flower Garden Coloring Book (Dover Nature Coloring Book)

## Synopsis

This coloring book has something for garden lovers of all ages--from a spring bulb garden bursting with tulips and daffodils to summer flower beds filled with brilliantly colored blossoms that attract butterflies. Just add a touch of color and bring to life more than twenty different garden settings, including those featuring lovely roses and climbing florals, as well as plots of ground set aside for cacti and edible flowers. Nature artist Ruth Soffer has accurately rendered full-page, realistic images of familiar flowers, birds, and butterflies to celebrate the beauty that lies just beyond the doorstep. A caption under each illustration describes the garden shown and cites the common and scientific names of plants displayed.

## Customer Reviews

In addition to illustrating books for Dover, Ruth Soffer has also done work for other major publishing houses. An artist specializing in natural science subjects, she lives in Brooklyn, New York.

I got 7 of these books and love coloring them. You can get really creative. I don't have an artist's talent, so I enjoy creating my own color combinations, although there are colored pictures of all of

them on the covers so you can follow those or come up with your own. These aren't not kids coloring books! They are more detailed, and I use colored pencils on some, fine point gel pens on others and a wide range of felt tip colors on most. I usually do these in the evening when I need to wind down and they work wonders for me. Even without artistic talent, I love my renderings.

This book is fun to color with all the flowers and many of them to choose from. There are many flowers, background boards/walls/window/houses/fences, animals, flower pots, birds and other things to color as well as flowers. To give you an idea of the variety, there is a turtle, butterfly, baby fawn, vegetables, fences, rocks, a bunny, ponds, a spider web and a bouquet of flowers. See what I mean by variety?! It's an interesting book and very reasonably priced. It has it all.. I really like it and highly recommend it.

bought these for my 86 yr old mother who likes to color to keep herself busy.he likes these books because they have colored pictures of what the flowerslook like colored in the back so she knows what color to color them.is the only place i can find these adult coloring books at a reasonable price.

This was purchased for my 91 year old Mom, to keep her busy while in a rehab program. Each page was just lovely, as far as subjects and variety of scenes to color. I'm very very happy with this purchase. Exactly what I was looking for and it did keep her busy and engaged. It truly warmed my heart to see her enjoying an activity like this. She suffers from Parkinsons and Macular Degeneration, so I really wanted a coloring book that was detailed, but not too small.....this one really fit the bill.

Wife enjoyed using them very much.

This is a well drawn book, but again, it would be nice if you could remove the pages without risking a tear out.

Love this book
