Villainy Victorious: Murder, Blackmail & Drugs New York Times Best Seller By L. Ron Hubbard: Mission Earth Volume 9

Synopsis

Earth is rising in the House of Voltar . . . And there's hell to pay! That's right. The invasion is on . . . and it's coming soon to a galaxy near you. The action couldn't be hotter, and the plot couldn't be more diabolical. Earth is coming to Voltar and the Voltarians won't know what hit them. Murder, blackmail, drugs, psychoanalysis, PR firms, sex-crazed teenyboppers, riots in the streets, women in chains. These are the powerful secret weapons of war perfected on Earth and imported to Voltar which are now being exploited by the ruthless Lombard Hisst, chief of the Coordinated Information Apparatus (the infamous CIA). His obsession: total domination of the Voltarian Confederacy. Can anyone stop the madness? Does anyone have the courage and charisma to crash this party? Enter Royal Officer of the Fleet, Jettero Heller. Dodging Death Battalions and death warrants, he's racing from Earth to face the challenge. But Hisst has taken Heller's beautiful sister hostage, and she may be the one who has to pay the ultimate price of VILLAINY VICTORIOUS. "A superlative storyteller with total mastery of plot and pacing." PUBLISHERS WEEKLY New York Times Best Seller L. Ron Hubbard Fiction Book

Customer Reviews

Replacement of this series I had read years ago and donated to the library. Wanted to read it again (20+ yrs later). Superb plot that keeps you wanting to read what happens next. Very hard to keep the book down until you've finished it... THEN you can't wait to start reading the next one.

This series gets better and better as you read through each volume. I enjoyed each of the 10 Mission Earth volumes, but from Volume 8 on they are truly exquisite examples of the genre. Hubbard outdid himself in these last three books, even to working out the complete handling for earth's drug problem, power problems and global finance. And, did I mention global warming and pollution? I'm simply amazed that books written in the 1980's are so applicable to the new century. And when I originally picked these up I thought they were fiction!

Unfortunately wants a longer review than "it stinks

Incredible! The dishonest PR techniques used by J Warbler Madison are exactly what have been being used routinely for the last 20 years to mold public feelings politically.

A brilliant satire! Ron did a great job of explaining how a culture gets completely messed up. I laughed so hard!

I like the fact that it is pure science fiction with a good story line

EXACTLY AS ADVERTISED

great collection
