Ok

There are few spelling errors and punctuation errors but it is still an amazing book.

This is an amazing book I love it so much make more books pls also everyone reading this comment download this book or buy it

It wasn't worth it

My 6 year old daughter loves the story, but I can't stand to read it. I will not buy any more of these books because of how poorly written this book is. There are multiple basic spelling mistakes (was there no editor? Or even the red squiggles provided by Microsoft Word?), and the sentence structure is disastrous. Many times I have to reread a sentence to understand what the author is trying to convey. I wish I had a printed version, so I could make notes with a red pen and send it back to the author. It honestly hurts my soul to read this book.

Who in the world wrote this??? It's so full of grammatical errors, even my seven year old was able to pick them out. I give it two stars because we spent lots of quality time together making corrections.

This is awesome book. So cool. I've always loved Herobrine. You must read. If you like Herobrine you will like this book.
