She Wants You: The Truth Behind Attraction

Synopsis

Do you feel uncomfortable around attractive women? Do you feel you could never date one? Then this is the advice you must read... A woman is not sexually attracted to you by how you look, how old you are, or how much money you make. She is attracted to your innate sexuality as a man. Everything else is unimportant. A woman wants a man who sexually knows what he desires, and then takes it - while not needlessly flaunting what he's doing. She wants a trustworthy man with common sense who knows who he is. She wants a man that will, literally and figuratively, take her... That man can be you. Don't delay finding out about this life-changing information. Scroll up and buy your copy now.

Customer Reviews

Joe Rabin tells you like it is. He has a firm viewpoint about how meeting a woman should happen, and he is not afraid to criticize men who are below his high moral standards in that regard. If you have read his first book you know what I mean. This guide goes more into the ethics a man must have in order to properly meet a woman, and the necessary sexual mentality and responsibility that

goes with it. This is not shallow advice. You will internalize it, and it will make you a better person, and a better partner in a relationship.

I've been divorced for almost a year, but I was married for almost 17. Upon my divorce I noticed something different. I had always still be attracted to other women, but avoided them to be a good husband. Once I was available and began looking at women as if I were available I received much more positive attention. The eye contact which I avoided became special. This book summarizes the knowledge and experience that I gained by still interacting with trustworthy women, while not actually partaking. Now that I am no longer married I have seen all that this book explains. Although I love myself regardless... it is refreshing to know I'm normal.KB

it's nice to read a pickup book that is clear about its intentions. this advice is only for guys who will not manipulate girls just to sleep with them. you have to be a nice guy. short but good and different than other books on the subject.

Thank you,for awakening what I have always known but was afraid to put it to use.your book has opened up my senses to live the life and the truth for now when I am attracted to a women I will look deep in her eyes and let her know how much I want her for the eyes will not lie and the truth will set us free from mental deception

Really straight forward and informative. Real talk without the filter. Great read. You won't be disappointed. It's all in the eyes... Read!

Joe Rabin makes it clear that he hates traditional Pick-Up Artist and their tactics, I for one like their tactics because they've been proven to work and are effective. With that in mind, the plain-simple, common sense advice he gives is just as crucial. Where Pick-Up Artist use tactics to defeat the barriers that women put up to deflect chumps, Rabin's picks up in getting to know the woman...

Not well written.

I found this book useful. I refuse to read PUA stuff, so this was new to me, and from a not-despicable viewpoint.
