# Space Exploration (The Solar System)

## Synopsis

How do we explore our neighborhood in space? Find out inside as we look back (and forward) at how human beings have used science, technology, innovation, and courage to find out what's out there. From the first satellites through the Apollo and space shuttle programs to the discoveries of the International Space Station and the Hubble Space Telescope, take a rocket ride through the history of how we explore the Solar System and much more. The entire series called THE SOLAR SYSTEM is your first-class travel guide to the biggest neighborhood you live in, from the Sun to the planets and beyond! The entire series called THE SOLAR SYSTEM is your first-class travel guide to the biggest neighborhood you live in, from the Sun to the planets and beyond! Blastoff on a visit to our solar neighborhood and beyond. This series visits all the planets in our Solar System, visits comets that are just passing through, and in Space Exploration, travels into the universe as human beings seek to find out what's out there. The books are packed with information, stories, photos, artwork, and more, including the latest developments in the always-changing story of exploration and discovery.
