Real Fit Kitchen: Fuel Your Body, Improve Energy, And Increase Strength With Every Meal

Synopsis

Upgrade your performance and diet. Get real and break free from the packaged bars and powders. Admit it, your idea of sports nutrition needs an upgrade. Are you still reaching for low-fat cheese sticks and peanut butter bagels for pre-event meals? Let's get real and break free from the packaged bars and powders. Active people, fitness lovers and athletes need practical guidance and proper knowledge about nutrition. Real Fit Kitchen is just what you're craving. Nutrition experts Tara Mardigan and Kate Weiler prove that the foods, supplements and beverages, that many think are aiding performance, are actually hindering and can be easily replaced with healthy, real, clean food. For example: - Instead of consuming chemical-laden and performance-hindering additives in packaged recovery drinks, make your own performance-boosting chocolate protein recovery drink. - Replace liver-damaging pain-relief medications that dehydrate and disrupt electrolyte absorption, try a tart cherry juice smoothie. - Substitute peanut butter laden with inflammatory trans fat and added sugar for muscle-rebuilding pecan cashew maca butter. More nutritious than store bought products, Real Fit Kitchen provides 100 healthy meals, snacks, smoothies, and more, including new ingredients (like performance-enhancing raw cacao, turmeric, and chlorella) to upgrade anyone's diet. Learn to make more efficient, cost-effective meals that your whole family will eat. Enjoy natural food, and replace sports nutrition unhealthy products that do not properly sustain an active lifestyle with delicious and easy recipes that the whole family will love. "Finally--a cookbook that combines common sense, nutrition science, and a passion for delicious food! Kate and Tara's recipes help us eat for an active, healthy, balanced life, with an emphasis on real, plant-based foods rather than highly processed bars and powders. I recommend this book to anyone looking for inspiration to create delicious, satisfying meals. I wish all of my patients would take this book to heart--the world would be a happier, healthier place!" - Dara Lee Lewis, M.D., FACC, instructor, Harvard Medical School and cardiologist, Lown Cardiovascular Center "Tara and Kate are one of the greatest teams nutrition has ever seen. Their blockbuster playbook of recipes and eat-to-win advice is a must-read for anyone who wants to take care of their body. I learned a new fact on every page and will eat much better from now on because of it." - Jon Meterparel, play-by-play voice of Boston College Football and Basketball on the IMG Sports Network and play-by-play talent, ONE World Sports TV Network

So what can I say? I am amazed! So a couple months ago, I had a friend that use dot work for the Boston Red Sox tell me about this book. I preordered it and waited, and waited, and waited.. It was SO worth the wait! So I am a pretend athlete. Past my athletic prime so to say, and struggle with diet, nutrition, weight, etc. Hey, I'm not 22 anymore, I can't eat what I want. So what's great about this book? Well let's start with the basis of it - great nutrition, natural ingredients, based in the experience of two great athletes - one of who turned around the nutrition program for the Boston Red Sox. Heck, if they can get Big Papi to stop eating hot dogs and lose 40 pounds and play till he's 40 - they can help me, right? So the quality of the recipes, etc is top notch. that can be expected. But what is a lay person like me, someone who barely knows the difference between a pot and a kettle do? Well, I follow the super well written directions, which make even a movie like me seem like I could open a restaurant. It is so well written for the 'commoner', that anyone can follow it and reap the benefits. I urge everyone to buy this book, make the recipes, enjoy the writing, and write your own thank you note to Tara and Kate. You will be happy, your stomach and training will be happy, and you'll never

look back!

I love the cookbook. I've been trying to add more healthful snacks to the options for my family and myself and the recipes in this book are easy and, more importantly, have been a success with everyone in my house. It's nice to have healthy, homemade options available for breakfast, lunch, and snacks. We loved the Marathon Muffins and the Pistachio Cherry Bites.

Love this cookbook! For healthy practical eaters. We found this helpful for our family of four. We try to eat clean and healthy but run out of ideas. This brought a lot more to the table!

Simple and impressive recipes. I have tried a couple and they are very tasty! Not comprehensive, by any means, but the detailed information about how to eat according to your goals is worth the price almost by itself. Great job!

Love love love!! Amazing cookbook! I love all the healthy recipes and it's so easy to follow.

Made a few recipes in a pinch; very simple and delicious. Especially the almond butter cups. They took no time at all and were a crowd pleaser. I'm also learning more about upgrades and now have high quality ingredients such as cocoa powder, high quality sea salt and turmeric root on hand. Thanks Tara and Kate for a great addition to our kitchen.

Fabulous cook book even for senior citizens who just want to improve their health with nutritious, easy recipes. I would highly recommend this cook book to everyone of all ages !

This is one of those cookbooks I just love to thumb through and imagine making everything in it. The pictures themselves are gorgeous. And the recipes are delicious, simple and quick. You won't sacrifice taste for healthy eating--super yummy food.
