Customer Reviews

The angry ranting of an obscure, small-party politician, the first volume of *Mein Kampf* was virtually ignored when it was originally published in 1925. Likewise the second volume, which appeared in 1926. The book details Hitler's childhood, the "betrayal" of Germany in World War I, the desire for revenge against France, the need for lebensraum for the German people, and the means by which the National Socialist party can gain power. It also includes Hitler's racist agenda and his glorification of the "Aryan" race. The few outside the Nazi party who read it dismissed it as nonsense, not believing that anyone could--or would--carry out its radical, terrorist programs. As Hitler and the Nazis gained power, first party members and then the general public were pressured to buy the book. By the time Hitler became chancellor of the Third Reich in 1933, the book stood atop the German bestseller lists. Had the book been taken seriously when it was first published, perhaps the 20th century would have been very different. Beyond the anger, hatred, bigotry, and self-aggrandizing, *Mein Kampf* is saddled with tortured prose, meandering narrative, and tangled metaphors (one person was described as "a thorn in the eyes of venal officials"). That said, it is an incredibly important book. It is foolish to think that the Holocaust could not happen again, especially if World War II and its horrors are forgotten. As an .com reader has pointed out, "If you want to learn

about why the Holocaust happened, you can't avoid reading the words of the man who was most responsible for it happening." Mein Kampf, therefore, must be read as a reminder that evil can all too easily grow. --Sunny Delaney --This text refers to the Paperback edition.

Book By Arolf Hitler

I am not here to criticize or defend Hitler, but as a historian, professor, author and a journalist, I am here to release a factual, fair, unbiased and objective analysis of this book, yet first to make a few points:I. In America we don't ban or censor information (like this book is banned in Germany), on the contrary we allow public to read Communist, Fascist, Islamic, Nazi and all other ideologies texts, and then judge for themselves about these texts. This is called freedom of information in a democracy.II. If you avoid the public to read something, they will go to great extent to discover what it is that you avoid them to read. Every action causes a reaction, equal and to the same power, yet in the opposite direction.III. As much as Hitler is criticized and hated in the West, yet he is admired and adored in many parts of the world such as East Europe (Romania, Bulgaria, and Hungary), Middle East (Turkey, Iran, and many Arab nations) and other areas. So it all depends who you speak to!IV. Like it or not, Hitler is the architect and creator of a global political and economical ideology named National Socialism (Nazism) which any free thinker or curious person must study like he studies any other ideology.V. To study and comprehend Nazism you must study and comprehend Mein Kampf (My Struggle) which is basically the Nazi Doctrine written by Adolf Hitler.This book is the best source of information to do this task. I speak 5 languages. I first read Mein Kampf in Persian (back in Iran) and I last read it in English (this book). I am here to tell you that this book is the original English translation, the best translation and the most accurate translation of Mein Kampf available.If you are a history buff, student of history, political junkie, information junkie, scholar or just a enthusiastic reader, then this is the most accurate and unbiased (pro or against) version of Mein Kampf to read. This is the original (1939 version) of Mein Kampf in English translated by James Murphy (distinguished Irish translator) to be distributed in the Britain and the Western World. The translation is extremely well done. There is also a fine introduction by Bob Carruthers (Scottish historian, scholar, filmmaker and author) included. In addition it is illustrated with tons of original photos (some rare) from the 1939 publication.If you want to read Mein Kampf for the first time, brush up on it or read the accurate version, then this is for you. It is the republished copy of the best version available. This book is historically and philosophically valuable and worthy to study and to read. I recommend this book to all.

If you read this book with focus, objectivity, and equip yourself with the tools for critical thinking, you will gain much insight into the causes of these endless wars and social upheavals that plague the planet today. Good luck,

When this book was written, it was a one of a kind in attempting to coalesce contemporarily divergent political views effectively into a single movement. The result of the new political view/effort resulted in the Nazi party. You know what happened after that. Similarly, Saul Alinsky, has paraphrased Hitler's ideas into a new view that nominally distances itself from Mein Kampf, but drives for an exactly similar result in this day and time. I think that it is a "Must Read" for modern peoples.

Well. I read for recreational purposes . The author of course is hated by all but it's still an important piece of literature for us to read . It's very interesting how he viewed the world.

A very interesting read. It gives some insight into the mind and thoughts of one of history's most infamous men. I feel it is a must read for everyone wishing to know more about the years leading up to the second world war.

The book is very informative in respect of having an insight into the subject's beliefs and values. I would recommend the book to anyone who has a genuine interest in world history.

I have read this lol

Must read for lovers of history
