## Customer Reviews

It was a very interesting and intriguing book. Read this with an open mind. There is a formula on finding your life path number to know about your life direction. It also has a chart on what your number says about relationships and compatibility. I did the calculations for myself and my family and it was accurate. It is spot on for so many things in life. They were accurate to me. They speak to me. I got to learn more about my finances, motivation, and talents. Amazing content in terms of depth and accuracy. It was very engaging that kept my interest on this book from beginning to end. This book will intrigue you to explore further. If you are a beginner of numerology, this will help you learn about it. It will guide you in the right direction on how to use the information to help yourself and your life.

It says here I am a dynamic person, extremely friendly and a deep thinker. I am also a family oriented person which is true. It also says I have good luck when it comes to finances. This book is a good source of motivation for success and for anyone who wants to know what their birth number means and aside from that if there would be any negative feedback then it gives you the reason to be more cautious. Honestly I don't really believe in luck but this book can be a very good guide towards success and what you aim in life. After reading this book I feel more positive with myself and what I can do as it determines what kind of a person I am which I rarely hear from anyone.

The book provides a brief explanation on what could be our possible strengths and weaknesses, how we can achieve a positive outlook in life, the possible ways to gain good health and a great abundance of wealth. I must admit that I purchased this book set to discover when is the right time to get married. With the amazing knowledge in this insightful book, you'll find out

whatÃ¢ÂÂs in store for you in the near and far future. With the enjoyable divination practice of numerology, youÃ¢ÂÂll discover how to fulfill your life goals!Chat Conversation End

Your life path number is the arbitrator and negotiator of any cause and effect happening in your life. Life path is quite important in your life because it is unique and donÃ¢ÂÂt change with the time in your life. Your life path is the exact proof and denotes the time when you came into this universe and thatÃ¢ÂÂs why it plays an important role to define your destiny and future consequences.

I was surprised when I read this book. I couldn't believe what I saw when I read about the date of birth. How could numbers relating to our lives describe to describe who we are, our destinies, our current life paths? It's unbelievable! Give this book a try and share your testimonies. Through this book, I have been able to see how these numbers relates to my life, and hopefully, I'll take one or two insights from the book when making future life decisions. Mine is true, would yours be true likewise? I'll really love to know.

I love numbers that's why I have browsed this book. This book is an average book for me. I never thought that the number of your birthday has meaning and the likes. I kinda not totally agree on some of its content because I believe that your future depends on what you are doing today not just by numbers of your birthday or names. This book is entertaining, though. If you do not have something to read on your free time, this is a good book to read. Something new can be learnt from this book just like other ordinary books. This is good for number lovers. This book does not have complex calculation so nothing to worry. I love the color of this cover because I love brown, but ignore the color. Just focus on its content and you will be entertained.

I've spend reading this book and calculating my birthday and birthdays of my love ones and enjoyed reading their numerology with them. I am particularly interested with this kind of topic, because it is enjoyable and somehow can always be an ice breaker to gathering.It's nice to know that somehow I can relate to each reading. It's amazing just by adding your birth date, you can actually know more about yourself. This book is fairly easy to understand, it can serve as a guide, inspiration or even motivation to achieve your goals in life.it is amazingly accurate, at least for me. If you're into this kind of genre, this book will certainly be informational for you. I enjoyed it along with my family.

Reading this kind of book can give me a great idea about myself. Numerology is a great motivation

and information about dealing with numbers through your character, life direction, relationship and even in finances. My birthday is 8th of march and I really love the result and the information I get from it because it suits me a lot. I also learn my true self here because I just feel it. I also found out the meaning of my boyfriend result. I am really enjoying this book and I will definitely introduce this with my friend.
