A menacing Tusken Raider angrily swinging his gaffi stick; Han in classic smuggler garb taking aim with his DL-44; a T-65 X-Wing, strike foils extended, going into a dive: calling this the Ultimate Star Wars Sticker Book isn't really an overstatement. With over 60 full-color, well-chosen stickers from the original Star Wars trilogy, DK Publishing has put together a collection of characters, ships, droids, and gadgets that'll please die-hard fans and pint-size sticker freaks alike. Did they include

Vader? Of course. The Falcon? Natch. Boba Fett? In his time-honored pose. Lando? Billy Dee never looked so good. Even Leia's sticker is fun, as she sports that blaster-in-hand, come-hither look. DK even came through with cool details on its more unlikely choices, like Boushh's thermal detonator, a TIE Bomber, and a Jawa ionization blaster. --Paul Hughes --This text refers to an out of print or unavailable edition of this title.

Read the captions of the booklet and, using the text beside each sticker, choose the image that best fits in the space available. Don't forget that your stickers can be placed on the page and peeled off again. If you're careful, you can use your Star Wars stickers more than once. You can also use your Star Wars stickers to decorate your own books. --This text refers to an out of print or unavailable edition of this title.

My 4 year old loves the stickers! They are good quality photographs. It is a great learning tool in that it helps him identify which pictures match with the shapes. He is also interested in the background stories in each category. For 4 pages of stickers and 8 pages to place them on, this is a great price!

I understand that this was my bad for not reading the description better, but I bought this because it was on sale for \$6 or something like that. I actually ordered two. My boys have had sticker books like this before and loved them, however the ones they've gotten before are like 50 pages. This one contained like 3 pages of stickers. I feel like I could buy something like this at the dollar store. I was very disappointed.

I wouldn't exactly describe this book as an ultimate sticker book. This book has a limited number of stickers. Compared to other sticker books this was a little disappointing. Why it's called an ultimate sticker book, I do not know. Otherwise it has nice quality stickers. Also there is a nice variety. Even though there are only 8 pages, there are 60 stickers. Each page contains a lot of outlines to match the stickers and a detailed summary of the character. DK publishes high quality books.

Sticker goodness in officially licensed merchandise from Star Wars- you gotta love it. Especially appreciate the part where if you are very careful you can peel off the sticker and put it on a smidge closer to where you intended for it to land. Bright colors in the stickers themselves, and a nice variety of representations of the basics of the series. The only improvement would be: more stickers (its just a bit short, but I knew that going in,) and a scene where you could pick and choose what

sticker goes where. This booklet has a (single) place for everything, and something more open ended would have been better. Still, it was a lot of fun and we enjoyed putting on the stickers of our long loved characters.

Great book for little ones obsessed with Star Wars. Lots of cool stickers and tons of cool descriptions of characters. My nephew loved it!!

I liked this. It was not as big as I would have liked, or expected but it was a nice sticker book. Bought it for a six year old and he loved it

Fun purchase for grade schooler and preschooler for a car trip. Grade schooler finished and correctly placed all stickers in his book within about two hours and was thoroughly occupied and pleased. Preschooler placed stickers wherever suited (lol) but also enjoyed using the book and as stickers were easy to peel from sheet, was happily entertained. Would purchase again. Big fan of DK products/books!!

PERFECT FOR THE STAR FAN IN ALL OF US
