Reptiles And Amphibians (Peterson Field Guide Color-In Books)

Synopsis

From the purplish gray of a Barking Frog to the pink and orange blotches of a Gila Monster, coloring your own field guide is the most enjoyable way to learn about reptiles and amphibians. Each drawing is accompanied by a brief description that educates as it entertains. Place the new color stickers next to the drawings for a visual reference while coloring. Coloring the drawings helps reinforce the color, image, and shape of each reptile or amphibian, improving your memory and perception while offering a pleasant and easy way to learn. Fun for adults as well as children, beginning and experienced naturalists alike.

Series: Peterson Field Guide Color-In Books

Paperback: 64 pages

Publisher: Houghton Mifflin Harcourt; Clr Sub edition (March 27, 2003)

Language: English

ISBN-10: 0618307370

ISBN-13: 978-0618307371

Product Dimensions: 8.5 x 0.3 x 11 inches

Shipping Weight: 12 ounces

Average Customer Review: 3.7 out of 5 stars 4 customer reviews

Best Sellers Rank: #1,517,717 in Books (See Top 100 in Books) #108 in [Books > Science & Math > Biological Sciences > Zoology > Reptiles](#) #420 in [Books > Science & Math > Biological Sciences > Animals > Reptiles & Amphibians](#) #2054 in [Books > Crafts, Hobbies & Home > Crafts & Hobbies > Papercrafts, Stamping & Stenciling > Papercrafts](#)

Customer Reviews

"Set(s) a benchmark by offering comprehensive and reliable keys to the outdoor world." The San Francisco Chronicle

Sarah Anne Hughes is the illustrator of many books, including the [Handbook for Butterfly Watchers](#). Roger Tory Peterson, one of the world's greatest naturalists, received every major award for ornithology, natural science, and conservation as well as numerous honorary degrees, medals, and citations, including the Presidential Medal of Freedom. The Peterson Identification System has been called the greatest invention since binoculars. These editions include updated material by Michael O'Brien, Paul Lehman, Bill Thompson III, Michael DiGiorgio, Larry Rosche, and Jeffrey A.

Gordon. ROGER CONANT was an American herpetologist, author, and conservationist. The late Robert C. Stebbins was professor emeritus of zoology at the University of California, Berkeley, and curator emeritus of the University of California Museum of Vertebrate Zoology. He authored over a dozen books plus numerous scientific papers and produced two documentaries. He was the foremost illustrator of North American amphibians and reptiles. In addition to his work in herpetology and vertebrate natural history, he devoted much of his life to promoting "ecological literacy" in both young people and adults through seminars, workshops, and publications. His last work, *Connecting with Nature: A Naturalist's Perspective*, summarizes his work in this important area.

The book is nice for the price, has lots of unfamiliar creatures my 9 yr. old son doesn't know a lot about. However, it comes with stickers, but no place to put them. You are to use the stickers to color the picture accordingly. Once you peel the sticker out, you hold it while you try to color, then what do you do with it? My son put his back on the sticker page, but of course they don't stick as well. He really likes coloring the life like drawings, though.

my grandkids love it

Book is not child oriented. The pictures are too small and refined and the descriptions are not geared toward kids.

Another good Peterson guide.
