# Communication And Education Skills For Dietetics Professionals

## **Synopsis**

Strong communication skills are vital for dietetics professionals. Building on the success of prior editions, this Fifth Edition shows how to take advantage of scientific models, theories, and strategies to communicate with clients, convincing them to make more healthful food choices. Moreover, the text offers plenty of activities and case studies to help readers put their communication skills into practice. This Fifth Edition covers all American Dietetic Association competencies in communication. New case studies highlight current issues such as cultural sensitivity. Also included are new student activities, discussion questions on key communication issues and problems, and a guide to online resources. A companion Website offers additional case studies.

## **Customer Reviews**

Nothing against seller... Just not interesting. Had to buy for my major.

started reading this book this semester (spring 2011) and so far the chapters are easy to read well lay out and not too long.book seems very imformative and flows well.

Bought for my Nutrition Education Techniques class very informative book with little funny comic pictures too

The book arrived in great condition. I only took off a star because it took longer than the other books

to arrive.

The book was in excellent condition, It came in about a week. And was about a quarter of the cost of my University bookstore!

fast and in time, good seller. very recommend . This is the first "larger product" in our kitchen collection. Thus far (one week), it is sharp, performs well for chopping and slicing, and has excellent balance and weight. Time will tell how it retains its edge and resharpen. send it to my boyfriend ,

The book I purchased from this seller arrived in pristine condition. Delivery was quick and it came well-packaged. I was worried that it might be different than the text required for my class but it is the exact book I needed! I would NOT HESITATE to use this seller again!! I can't believe I haven't buying all my textbooks here. I will be from now on!
